Dears Sirs,

I have recieved your Project Blue Book. I and my brother, would like to tell you about the U.F.O. we have spotted. We spotted a big bright white light over Catalina, on November 30, 1966. The time was precisely 6:29 P.M.

We live right on the coast of California in a city called San Pedro. I know there is not any kind of star above Catalina from our view point. It was ~~of~~ 90° degrees above Avalon Bay, Catalina. Facing toward Catalina it would be at 11 o'clock, like they would say on 12 o'clock High. It was hovering about 1 mile high above the Island. It was hovering until an airplane came to 2 miles east of it. Then it disappeared to a little red glow, similar to a red hot coal. It was surrounded by a ring of smoke.

This is about all the information I could give you at this time.

Thank you for your time and cooperation.

Sincerely,

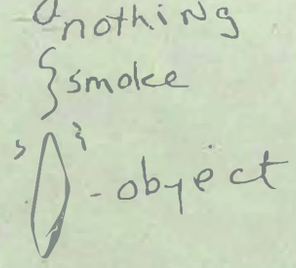
My mother & I are were in the car, I was driving. My mother looked up in the air and said "I never saw a jet like that before - it's coming right straight down!" I looked at it and said "That's no jet." It was a large glowing object leaving a trail of white smoke - a short trail - it disappeared (the smoke) always behind it -



We kept going and saw it for about 5 miles. I rolled down the window and looked at it. It came in a sudden stop and just stayed there

in the sky until we were too far away to see it any longer. We couldn't stop for long because we were on the way to the airport (30 miles away). All while we were driving and could see it, it never got lower than the one point at which it suddenly stopped this incidently was to the ~~right~~ of (north) the Atomic Energy Commission at Germantown, Md. - I don't know how far to the ~~left~~ right (north)

SUBJECT: UFO SIGHTING - Beverly, Massachusetts - 11/15/66

DATE: 18 December 1966

FROM: Raymond E. Fowler
Chairman: NICAP MASS SUBCOM

TO: NICAP
Washington, D.C.

cc: AFSC-FTD (TDETR)
Congressman W.H. Bates

ATTENTION: Richard Hall
Assistant Director

SIGHTING BACKGROUND:

I met Mr. Richard Symmes after lecturing to a group at the First Congregational Church, Swampscott, Massachusetts. Later I dispatched Investigator Gary Storey to interview him. Mr. Symmes filled out the standard NICAP UFO FORM and signed it. A copy is attached to this memo.

SIGHTING ACCOUNT:

Mr. Symmes and Mr. Durkee were hunting duck in a small boat off the coast of Marblehead. Looking over in the direction of Beverly, Mr. Symmes spotted two strange-looking objects seemingly hovering over the Beverly area about six miles away from them in the Northwest. Mr. Symmes alerted Mr. Durkee stating that what they were observing must be UFOs. They watched off and on for about 15 minutes while hunting and then while looking away, the objects apparently vanished. Mr. Symmes eliminated balloons or aircraft due to the shape and non-motion of the objects. He insisted that they were solid objects.

EVALUATION:

It is hard to say just what was observed. Neither observer saw the objects arrive or leave and they seemed to hover with no motion whatsoever. The wind was blowing at a good 20 knots, NE so clouds would have moved quite a distance in fifteen minutes. The lower object seemed to be shimmering while the smaller object above it seemed non-reflective. It is possible that some type of mirage was witnessed. In itself there is insufficient evidence to indicate that the report involves an authentic UFO. It is submitted for information purposes. It might serve as supplementary evidence if other reports are received for that time and date.

Respectfully submitted,
Raymond E. Fowler

Dear Sir:

About the same hour that the B52 blew up at Stone Lake, Wis. I went out to let my police dog in and I noticed in the sky North by East a cherry red glowing object in the sky not very high above the tree line. It was moving back and forwards. I thot it was my vision that caused the moving so I set my eye on the corner of my house and it seemed to be trying to hold steady in a wind.

Two or three years ago I noticed the same kind of object over my neighbors house a half a mile north of me. My neighbor Paul Olson is an ex service Sargeant and a member of the Communication workers union a Communist riddled union. I have that he was a Communist. He doesnt send his children to Sunday school and he is not a church member.

It is my ~~belief~~ belief that they have used some kind of rays to explode the B52.

Another fact is that my seeing the object over Olsons house about 8:30 P.M. on ~~Friday~~ Saturday and this B52 exploded around 7 P.M. Friday Paul Olson works in Minnesota west of Duluth. He comes home Friday afternoon and goes back to work Sunday afternoon. So he was in this area at the ~~same~~ time of the explosion.

Last night about seven I went out to see if the

object I saw in the sky was still there but it was gone.
Have they mastered gravity?

Sincerely,
Roy E. Johnson

Dear Sirs,

On November twenty second at seven o'clock p.m. I was standing on the beach when I noticed what I thought were two 'stars'. These 'stars' were quivering in a horizontal motion. As I stood there watching these 'stars' one of them began to jump vertically and it came straight at me at a tremendous speed. When it seemed no more than a hundred or so yards away, I started running.

A few minutes later I was down on the beach again, but with some friends. One of the stars, the one which hadn't moved, moved straight up and out of sight. The star that had charged me was back in its original position but it was jumping all around. Farther south from where we were, another 'star' appeared but it didn't do much.

As a crowd gathered on the beach, the 'stars' did less and less jumping around. Finally, as the crowd was leaving, I noticed another 'star' coming in from the north at about the speed that a satellite appears to move at from earth. I called ~~to~~ the crowd and pointed it out to them and immediately after this, the 'satellite' shot straight up at an unbelievable speed and was out of sight in a fraction of a second.

After this, very little happened and, finally everyone, including me, left.

The 'stars' seemed to be flashing lights of red, blue, yellow, and green. There was no engine sound at all that ~~as~~ I could tell,

indeed, there was no sound at all. Inclosed is what the 'star' looked like to me at close range.

Sincerely,

(b) (6) [redacted]

P.S. I am fifteen years old and in the ninth grade. These objects were sighted over the Persian Gulf in front of our recreational center at Ras Tanura.

UNIDENTIFIED FLYING OBJECT PHOTOGRAPHED—Peter Kaemmerlen, 15, who lives off Wilson Place, Cornwall, is believed to be the first person in town to have sighted and photographed a UFO. Above is the proof, substantiated by Paul Wilson of Cedar Lane, who also saw the flying object. Top photo shows the disc approaching the Daniel Neal home on Wilson Place and the bottom is an enlargement. Peter told The Cornwall Local reporter that he was taking pictures with his Argus Instamatic camera and standing in a lot below the LeRoy Wilson home at 3:30 p.m. Friday when he was startled by a flying disc coming towards him from tre vicinity of the Hudson River. As it approached the Neal home it seemed to pause momentarily long enough for him to merlen said the UFO appeared to be about 18 feet across, flying at a height of some 50 feet and was blueish gray in color, but did not glow as some of the flying saucers were reported to do where they were sighted in the Warwick and other areas. After he got his shot of the flying object he said it slowly turned south and then with incredible speed took off and disappeared over the Storm King Mountain horizon. The youth did not mention his experience to anyone until he developed the film in his darkroom and made prints of the UFO in the Cornwall Central High School darkroom, so that he would have photographic proof to show. Pete vows it was the real thing and not a garbage can lid tossed in the air, as some of his classmates jokingly charged.

I FIRST NOTICED IT IN THE NITE SKY BECAUSE IT WAS SO MUCH BRIGHTER THAN THE SURROUNDING STARS. I POINTED IT OUT TO MY PARENTS AND ASKED THEM IS THEY KNEW WHAT IT WOULD BE. THEY SAID "NO," BUT WERE CURIOUS OF IT BECAUSE OF ITS BRIGHTNESS. WE CONTINUED TO WATCH IT AND SUDDENLY IT MOVED TO ANOTHER POINT IN THE SKY, AND REMAINED THERE FOR SEVERAL SECONDS. THIS ACTION WAS REPEATED SEVERAL TIMES IN THE TEN MINUTES WE WATCHED IT BEFORE IT DISAPPEARED BACK THE HORIZON.

DURING THIS TIME WHEN IT MOVED ABOUT IT WOULD SOMETIMES MOVE VERY FAST, AND AT OTHER TIMES RELATIVELY SLOW. THE BRIGHTNESS OF IT ALSO CHANGED SOMETIMES VERY BRIGHT, AND SOMETIMES QUITE DIM. BOTH OF THESE ACTIONS DIDN'T SEEM TO HAVE ANY SET PATTERN.

BOTH MY PARENTS AND MYSELF ARE DESINEATELY SURE IT WAS NOT A CONVENTIONAL AIRCRAFT.
