Subject: Assassination Records Allegedly in the Possession of Robert Groden

As we have known for some time now, there are a number of allegations circulating among individuals who are familiar with Robert Groden that he may have taken assassination related films and photographs from the House Select Committee on Assassinations during the period that he worked for the Committee as a consultant.
Based on my review of the allegations regarding Groden's possession of films and photographs, I recommend that the Review Board issue a subpoena to Groden for the films and photographs that are in his possession.

The Review Board should also consult with the Department of Justice to determine what steps we should take to ensure preservation of assassination records allegedly in Groden's possession. Please see the attached memorandum dated April 2, 1996, from Laura Denk.
