Transcript of Voice Mail Message that Robert Groden left for Tom Samoluk on 6/1/95 at 2:16 p.m.

Mr. Samoluk, hi? This is Robert Groden calling.
I've never given any information or testimony to the Review Board but I feel that there are some areas of the photographic evidence that I would like to have some input with. I was the staff photographic consultant to the House Assassinations Committee and I've written five books on the subject of the assassination and I would like to find out about the best to go about doing it without a media circus type situation. If it has to be that way, then so be it, but I have some input relating to photographic materials that I believe exist and, in some cases, know exist, that have not been made available to the public before and if you could call me back, I'd appreciate it. The number is (610) 485-3020. Thank you very much. Bye Bye.
