

Federal Register insert:

Three of the records listed above (124-10070-10076, 124-10100-10265, and 124-10119-10221) were the subjects of a prior notice of determinations (published February 20, 1996 at FR 96-3708). At the February 29-March 1, 1996 meeting, the Review Board decided to reconsider, in the light of additional information provided by the FBI, its prior decision to release these records in full. Upon reconsideration, the Review Board decided to postpone the name of an informant appearing in these records (which are copies of the same document at different locations in FBI files) for a period of ten years.
