

Hi Kevin

Thanks again for all of your training on Fed. Register stuff so far. Your patience, on top of all you have to do otherwise, is very much appreciated. Of course, I still have a couple of questions. Would you mind looking through the enclosed pile of copies and letting me know, in your estimation, if you believe this is an all inclusive list of every letter we sent out yesterday? I want to ensure we have everything in the Chron files, etc.

Then to reiterate on who gets a copy of what: A copy of every agency letter should be enclosed in the 4 series (my filing cabinet) (but where exactly?) And in my Chron and Tracy's chron, correct?

Jeremy, who much to my surprise is here today, did tell me to give him a copy of the letter and enclosures that went out to the Federal register only. And he did say, as I recall you said yesterday, not to give copies of agency letters to David Marwell or him since they are standard form letters.

Thanks again.
