

## MEMORANDUM

August 21, 1995

### BY FACSIMILE

To: Frederick Graboske, USMC Historical Center

From: Douglas Horne, Assassination Records Review Board

Subject: Document Request

Per our earlier conversation this date, please locate and provide by FAX the following two items:

A. USMC-generated regulatory guidance (or guidance generated by higher authority such as DON or DOD and used by the Marine Corps) on conditions under which the following I.D. card would have been issued by Marine Corps commands, effective September 4, 1959: "Uniformed Services Privilege and Identification Card," DD Form 1173.

B. Basic USMC guidance on the 3 levels of M-1 rifle qualification, namely:

MARKSMAN, SHARPSHOOTER, and EXPERT.

The desired information here would include the numerical range of scores required to qualify for each rating, and a description of skills required, or expected, of a Marine obtaining each qualification, effective November 1956.

Thank you.
