

MEMORANDUM

March 14, 1996

BY FACSIMILE

To: Steve Tilley, NARA

From: Doug Horne, ARRB

cc: Jeremy Gunn
Tim Wray

Subject: JFK Autopsy X-Rays and Photographs

I have been tasked to do a thorough and exacting chain-of-custody study of the autopsy x-rays and photographs. In order to complete this task, I would like to ask for your assistance in one small matter.

Could you please forward to me your most current detailed inventory of those materials? Sending this information to ARRB via facsimile would be satisfactory.

In the way of clarification, I already have the documents titled "Record Group 200--Original Warren Commission Autopsy Materials, Appendix B of the Kennedy Family Agreement," and "Record Group 233--Material created for use by the House Select Committee on Assassination and left in the custody of the National Archives while the Committee conducted its investigation." Unfortunately, for the most part, these documents are lacking in the kind of detail which would allow me to correlate the present materials with the November 1, 1966 Military Inventory (signed on November 10, 1966) on an individual, enumerated basis.

Thank you, in advance, for your assistance.
