Subject: phone call/follow-up with Mr. William Elwood
Date: August 27, 1996

I received a call from a man named William Elwood. He requested the status of a document (#180-10118-10043). He believed it might have something to do with his father who died in 1969.

I referred this request to Joe Freeman, Senior Analyst, who found the document cover sheet. The document is open in full. It did not have to do with one **William Elwood**, but with a Elwood W. Johnson. The manner in which the subjects of the document were listed lead the caller to believe it said William Elwood.

I called Mr. Elwood to let him know of our finding.
