10 University Drive  
Duluth, MN 55812-2496

Dear Jim:

Thank you for your letter. You certainly are correct: many have claimed that Lee Harvey Oswald did not take the trip to Mexico City in late September, 1963. We should have referred to it as Oswald's "alleged" trip.

Regardless, there is great interest in the Mexico City issue and we have released many CIA records associated with it. There is evidence that an audiotape may exist of the conversations in the Soviet Embassy. If one exists, the Board hopes to locate it. The Board is also focusing on the medical records in the hopes of answering some of the many lingering questions.

I hope all is well with you.

Sincerely,

John R. Tunheim  
Chair
