Dear Mr. Frewin:

As a follow-up to my letter of January 24, 1996, I am enclosing the Record Identification Form(RIF) for the FBI document which you highlighted in your letter and article. This is the RIF for the document from the FBI files. Most of the document is currently open. It has a few redactions which the Review Board will review in the future, as it will do with all agency records which are closed or have any redactions. The document may be requested from the National Archives, using the record number from the enclosed RIF.

I hope this information is of assistance to you.

Sincerely,

Thomas E. Samoluk, Esq.
Associate Director
