Title: [REDACTED] Interview of [REDACTED] [REDACTED]

Date: 10/[REDACTED]/2024

From: [REDACTED]

Contact: [REDACTED] [REDACTED]

Approved By: [REDACTED]

Drafted By: [REDACTED]

Case ID #: [REDACTED] [REDACTED] Unidentified Aerial Phenomenon (UAP) - [REDACTED]

[REDACTED] Unidentified Anomalous Phenomenon (UAP) [REDACTED]
[REDACTED]

Synopsis: [REDACTED] Interview of [REDACTED] [REDACTED]

[REDACTED]

Details:

[REDACTED] On 10/[REDACTED]/2024, [REDACTED] [REDACTED] ([REDACTED] was interviewed at the FBI [REDACTED] [REDACTED] [REDACTED]

[REDACTED] [REDACTED] is currently employed by [REDACTED] and works primarily in the [REDACTED] [REDACTED] facility. [REDACTED] spoke to a presentation and videos that were previously provided to the FBI. [REDACTED] has spoken with fellow and former [REDACTED] employees, [REDACTED], [REDACTED], and [REDACTED] about the sightings observed from [REDACTED] property in [REDACTED] [REDACTED]

Title: [REDACTED] Interview of [REDACTED]
Re: [REDACTED] 10/[REDACTED]/2024

outside of [REDACTED] back window. Initially, [REDACTED] believed someone was in [REDACTED] yard with a flashlight bobbing around. When [REDACTED] went outside, [REDACTED] observed a singular light that eventually split into two or three lights. This formed a triangular pattern with a light in the center and remained for approximately ten minutes. [REDACTED] got [REDACTED] to see what [REDACTED] was seeing as well. [REDACTED] while filming on [REDACTED] smartphone, accidentally took a flash photo and the lights immediately disappeared.

[REDACTED] Speaking to a sighting on 03/[REDACTED]/2022, [REDACTED] played a video that was previously provided to the FBI and explained that the location of this sighting was not in the same location. [REDACTED] stated that the UAP sightings that [REDACTED] observes are typically at dusk or at night and the light observed appears to morph and move laterally.

[REDACTED] [REDACTED] first reached out to [REDACTED] [REDACTED], formerly of [REDACTED] through LinkedIn to speak about what [REDACTED] had observed from [REDACTED] [REDACTED] home. In conversations with [REDACTED] [REDACTED] was told that what [REDACTED] was observing was legitimate and that "people have been hurt by these things" and to be careful. [REDACTED] asked [REDACTED] if [REDACTED] had a UFO experience before in [REDACTED] life. At this point, [REDACTED] explained an incident that occurred in 1996. [REDACTED] stated that [REDACTED] was driving with [REDACTED] Army officer from Fort Bliss, TX to Fort Carson, CO. While in New Mexico, [REDACTED] claimed that the vehicle [REDACTED] was driving shut down and a large light shined on [REDACTED] and [REDACTED] passenger. After about two minutes the light went away and the vehicle's electronics turned back on.

[REDACTED] [REDACTED] has lived at [REDACTED] current property, [REDACTED] in [REDACTED] [REDACTED] since 2021 but [REDACTED] previously lived about five miles from [REDACTED] current home from [REDACTED]. [REDACTED] stated that [REDACTED] has seen hundreds of these lights from [REDACTED] property and has numerous videos and photos that [REDACTED] was willing to share. [REDACTED] also stated that [REDACTED] has seen these lights as well and others who have visited his property as well.

[REDACTED] [REDACTED] stated that [REDACTED] has seen more activity since September. The sightings have not always been as long as [REDACTED] initial sighting in 2021. There have been shorter bursts and it is common to have corrupted video when trying to record these sightings.

[REDACTED]

Title: [REDACTED] Interview of [REDACTED]
Re: [REDACTED] 10/[REDACTED]/2024

[REDACTED] [REDACTED] explained how [REDACTED] used ADSB data to try a disprove what [REDACTED] was seeing as aircraft flying overhead. [REDACTED] explained that [REDACTED] cross referenced date and time stamps with ADSB records to determine what sightings may be aircraft. [REDACTED] would then determine the azimuth of the lights and check the ADSB data.

[REDACTED] [REDACTED] acknowledged throughout the interview that [REDACTED] never had an interest in UAPs and that a lot of what [REDACTED] said may seem weird or crazy.
