On 12/[REDACTED]/2024, Special Agents (SA) [REDACTED] SA [REDACTED], and
SA [REDACTED] surveilled the area around [REDACTED] in [REDACTED] [REDACTED]

[REDACTED]

[REDACTED]

Title: [REDACTED] Site survey of [REDACTED] [REDACTED]
Re: [REDACTED] 12/[REDACTED]/2024

[REDACTED] The purpose of the surveillance was to take photographs and survey the locations where SA [REDACTED] and SA [REDACTED] observed Unidentified Aerial Phenomenon (UAP) activity on 11/[REDACTED]/2024.

[REDACTED] Agents walked the perimeter of [REDACTED] in a clockwise direction at approximately 10:30am. Agents followed a marked trail which was approximately a two mile loop around [REDACTED] and departed from the trail in areas to the West and North of [REDACTED]

[REDACTED] On the Northwest side of [REDACTED] at approximately 11:00am, Agents departed from the marked trail and descended to the water's edge. Facing South, Agents were able to see [REDACTED]' property at [REDACTED] without any obstruction and full line of sight. In the vicinity where Agents viewed UAP activity on 11/[REDACTED]/2024, there did not appear to be anything unusual present on the ground or at treetop level.

[REDACTED] Agents continued toward the North side of [REDACTED] also in the vicinity of UAP activity observed on 11/[REDACTED]/2024, there did not appear to be anything unusual present on the ground or at treetop level. There was an area that appeared to be a once used as a fire pit, but there did not appear to be any evidence of recent burns as the ground was blanketed with leaves. As Agents departed the marked trail and descended to the water's edge, Agents had line of sight to multiple homes on [REDACTED] to the East of [REDACTED]

[REDACTED] Tree cover throughout the area around [REDACTED] was moderate and Agents assessed that it would be unrealistic for someone to fly a drone or other craft at night without the risk of crashing into tree limbs.
