Reel 4

school  
 general  
 intelligence  
 significant  
 is, and was  
 to the present time. I am going to go over this fairly  
 to the present time. I am going to go over this fairly  
 rapidly in English so that you will be both up to date with  
 rapidly in English so that you will be both up to date with  
 me. One problem he raised is that he wants to go to the U.S.  
 He has relatives there and that his intention was to work in  
 the States in matters like this, because he feels this is  
 where he will be most useful. His father-in-law and wife are  
 both in Cuba and he is worried about his getting them out.  
 He has given me his true name which is that which you have  
 already mentioned to me, the pseudonym which he used just  
 for passport purposes to cover the trip outside. He also  
 gave me the pseudonym which he uses for his work inside  
 which is Victor. <sup>HISTORY</sup> Very briefly, after he left school he had  
 a couple of jobs and then he began working with the 26th  
 of July movement. This is <sup>an</sup> ~~the~~ movement which is an anti-  
 Batista movement and his work in this movement was the work  
 of many others. He was to commit acts of sabotage inside  
 Havana and also to do propoganda work, ~~and~~ while he was  
 engaged in such activities he was taken prisoner in 1957

*Castillo Prinsapay*

This was after a fire-fight, He was in a ~~fire~~ <sup>car</sup> with another fellow, two police cars came up, they exchanged shots but they were captured. He was beaten up and stayed in the ~~Castillo Prinsapay~~ which is a jail in Havana, and He was kept in jail until <sup>11</sup> February 1958 when he got out. When he got out of jail he went into the Sierra Maestra mountains <sup>where</sup> and he worked with ~~the~~ <sup>Colonel</sup> ~~Colonel~~ <sup>with</sup> ~~the~~ <sup>the</sup> column of Rubero Mantoz who is a real ~~gun-~~ <sup>gun-</sup> sort of fellow. He did engage in some ten or twelve fights, there is, fire-fights, during the time he was with ~~Rubero Mantoz~~. <sup>Then</sup> When the Batista Government fell in January 1959, the column with which he was fighting was in ~~Santa~~ <sup>Santa</sup> ~~Avre~~ <sup>Avre</sup> de Cuba, and he went to Havana with Miro ~~Vardonez~~ <sup>Vardonez</sup> and a group of fellows close to Miro. When he got there he was assigned to the investigator <sup>(95 1st Lt)</sup> department which at that time was headed by Aldo Veraz Serafim, and His particular job in this investigating department was to conduct investigations of illegal gambling, that is, gambling which was done outside of the cabares and the gambling houses. He stayed in that job until November <sup>21</sup> of 1959 when he was transferred to the 18th. precinct, a police station. There he was the second chief, and He stayed there ~~and he stayed~~ until January <sup>26</sup> of 1961. At that time he was transferred to National Police Headquarters but he did not have any ~~specific~~ assignment. He was <sup>as</sup> the stand-by officer and ~~he stayed there~~ without having any specific duties. He just signed the roster in the morning and took off, until the end of 1961 at which time he was transferred to a police <sup>(1st Lt)</sup> battalion, and He

remained with the police batallion until <sup>3</sup> September of 1961. At this time he was transferred to the Castillo ~~de~~ <sup>de</sup> Moro to study. This was a basic study and did not have anything to do with intelligence work. He was in school there until <sup>20</sup> December of 1961 when he got holiday leave. He decided that he did not want to stay in the Army anymore because this police work was still an assignment while he was in the Army. He had already begun to have doubts about continuing to work for the Castro government and was thinking in terms of getting out. When he resigned from the Army his papers were not processed right away, ~~and~~ <sup>he did not report</sup> and he was reported for being away without leave. Because of this difficulty, he had some difficulty getting work and he was out of work until <sup>2</sup> April 1962, when he got a job in the Ministry of Exterior Commerce. The particular section in which he worked had to do with the importation of vehicles. <sup>He had a</sup> ~~and~~ He remained there until August of 1963, <sup>16</sup> ~~and~~ He had a friend named Saul Gonzalez who was an intelligence officer and through this friend he got a job in Intelligence. This particular friend is either the Chief or the 2nd Chief of what they call the <sup>"B"</sup> illegal section - this is a section which specializes in training agents for assignments abroad, particularly in Latin America. When our friend here began working in Intelligence he was assigned to the Salvadoran Index <sup>is</sup> that is the area about which he himself knows most from his own personal knowledge. This Intelligence Service for which he worked is called Section <sup>(M)</sup> ~~(B)~~ in loose language but is properly known as <sup>Director</sup> ~~Director~~ General <sup>Intelligence</sup> ~~Intelligence~~.

\* Source later clarified this, identifying Ramon Coar as the chief of Section B of the illegal department and Saul Gonzalez as the chief of the principal offices in the department.

Now this section is engaged in, let us call them, "aggressive" intelligence operations. In other words, it is an organization which exists for the purpose of collecting intelligence in other countries. It is distinct from the D.S.S., the Department of State Security, which is a counter intelligence group. The two of them <sup>are</sup> completely separated but both <sup>are</sup> intelligence organizations, and <sup>he</sup> knows most about the <sup>and</sup> group or the intelligence directorate, of which Manuel Pineda, <sup>was</sup> well known as <sup>AKA W</sup> Red Beard, <sup>he</sup> is the Chief. The other <sup>section</sup> is headed by <sup>AVARANTES</sup> Avarantes. I asked some questions to which I already knew the answers and he also knows the answers, so I am not going to go over them, because they are not so important as <sup>they are</sup> ~~just~~ more or less test questions. I would say now that he does know what he is talking about. <sup>RECENT INTELLIGENCE INFORMATION</sup>

This is not all invention. He recently made a trip to Mexico, ~~and~~ He made the trip to Mexico in order to contact a Communist Party group which was coming from <sup>El</sup> Salvador. These were people with whom he had contact. They did not appear for the meeting, <sup>so</sup> the meeting did not take place. He was in Mexico from the 14th. of March until the 23rd. of March and during that time <sup>although</sup> ~~one~~ of his own operational meetings did not take place, he did meet some people of interest. Two people from ~~the~~ Nicaragua, <sup>(Professor Torres and Abel Gonzalez)</sup> one of whom he met in the Cuban Embassy in Mexico and the other whom he met in a private house while in Mexico. In Mexico <sup>city</sup> he knows who the intelligence people are, and <sup>MIRADAL</sup> one is the Cuban Consul Alfredo Miravel. He is called the Chief of the Centre, that is his title but he is actually the intelligence chief,

201-7

143

5

Or at least, he was until the 16th. of April at which time a replacement was sent to Mexico to take over, and this fellows name is Manuel Vega. He says that the Commercial Attache whose name is Ricardo Concepcion (is not sure is an intelligence officer and another one is Rogelio. (I might say that some of these names are familiar to me.) He also knows that in Italy the intelligence officer is Roberto Moro who has the cover job of 1st. Sect. As far as communications are concerned he says that they have been using mostly accommodation addresses and secret writing. He says this has not been too successful, however, because the M-developers dont work so they get the letter and they go to develop it, and they cant read it. They also use radio (and they are using a two-way radio which is quite interesting). Some of this radio is used for, lets say "normal" transmissions back and forth, particularly in the case of Venezuela. Some of the radios which are issued are really only for emergency use. People are not supposed to use them except in dire emergencies such as an attack on Cuba. They normally are supposed to use secret writing. Now, he said a couple of other things, of which I did not take note, but are of interest to all of us, for example, on arrangements for them. - If they want to send someone out on an intelligence assignment and the assignment is one to a Latin American country (where they send most people) this would be taken up by Piniero Valdes and Piniero Valdes is the Minister of the Interior but he has another hat, he is the chief, overall chief of Intelligence

201-17530-10

201-03550-23

OTHER INFORMATION OF THE

J. C. CASTRO

Normally this would also be taken up with Fidel Castro and  
the orders would be issued and passports would be given to  
<sup>the reports</sup> them to go out. Now, this is where they are sending some-  
one out on a more or less permanent assignment under  
diplomatic cover. If, however, they want to send someone out  
(such as himself on this <sup>went</sup> trip to Mexico) for a short T.D.Y.  
they just say give us a passport <sup>in</sup> and such and such a name  
<sup>and</sup> as its <sup>is</sup> issued (and no fuss or frill about it). Now the  
situation is a little different where a passport or visa is  
to be secured for travel to one of the "Socialist" countries.  
There this has to be laid on through the Cuban Embassy in  
that country. - For example he says that in Czech, <sup>there</sup> is  
a Czech Intelligence Officer in the ~~Mexican Embassy~~ - I mean  
~~in~~ the Cuban Embassy. He is the guy who decides if the visa  
will be granted. <sup>discusses</sup> Now, in order partly to establish his own  
bona-fide <sup>the answer</sup> his own good faith, he brought us these documents  
from the files so that he could show that he was not  
inventing, <sup>and</sup> the documents which he brought out, in general,  
are these that I will go over right now. He brought out some  
passports. He says <sup>that</sup> these are ~~some~~ falsified Cuban passports,  
that is, they are falsified in the sense that they are issued  
in other than a true name, <sup>as he brought</sup> and some legitimate passports  
which have been secured in various Latin American countries.  
He also brought out some <sup>cedulas</sup> ~~sedulas~~, which are identity documents,  
which were issued for trainees who came to Cuba for training.  
Parenthetically, I might mention one thing on which I did not  
make a note which is quite interesting. <sup>GUERRILLA WARFARE</sup> Most of the trainees  
who have come to Cuba have come <sup>ostensibly</sup> ~~ostensibly~~ for guerilla  
training <sup>after which they</sup> and then will go back and export the revolution

PP

PP

- 7 -

in their own countries. But when these people are in Cuba for this type of para-military training he and other officers like him would select those that they thought most useful for intelligence purposes and these would be separated from the group and would be trained for intelligence missions without the knowledge of the others and without the knowledge of the Communist Party which sponsored the sending of the people to Cuba. He also brought out one Mexican passport which is of interest in that this was secured through a contact of the Communist Party ~~there, <sup>in</sup> the Communist Party~~ in El Salvador, and it was sent to Cuba to be used in covering the travel of somebody that they might want to send in and did not have documents or who would have to travel in a nationality other than his own. He has a Salvadoran passport which belonged to a Salvadoran who actually fled to Cuba. He brought one <sup>operational</sup> file which, he says, he thinks we can review because it is quite interesting, showing exactly how they run a case. He said, altogether, <sup>that</sup> he brought out three of these <sup>operational</sup> cases. He also brought out a financial report of the F.L.N. which is a National Liberation Front in Nicaragua. He also brought out photographic copies of certain documents which he thinks are of particular interest because: <sup>(1)</sup> ~~one~~ they are related to the intelligence activities, <sup>(2)</sup> ~~two~~ - because they have inter-collations, <sup>(3)</sup> ~~three~~ is in ciphering and de-ciphering, and these inter-collations are, he said, not done by desk officers like himself but are done by a special section which is called the Central Cipher Section. About agents, <sup>he</sup> said that he himself knows of the following:

Two Guatemalins ~~He~~ saw one of these two in Mexico very recently on his trip there and the fellow was advanced \$120 <sup>dollars</sup> to get to Guatemala. ~~He~~ knows <sup>one</sup> Honduran agent, ~~Two~~ Panamanian agents, <sup>Three</sup> Salvadorans <sup>he</sup> knows personally, and ~~he~~ knows two more who are in Salvador but <sup>he</sup> does not know ~~them~~ personally. ~~He~~ knows <sup>Three</sup> agents in Mexico, <sup>one</sup> of them is a C.P. <sup>ES</sup> contact named <sup>MAURICIO</sup> ~~MAURICIO~~ de la <sup>SALVA</sup> ~~SALVA~~ and two of them are Nicaraguans who are in Mexico. ~~He~~ knows <sup>one</sup> Nicaragu agent who is now in Cuba, ~~he~~ knows <sup>Two</sup> from Santo Domingo who are now in prison in Santa Domingo, and ~~he~~ knows <sup>one</sup> from Haiti who is now in Cuba. <sup>to be sure</sup> ~~Now~~ I did not get the names, <sup>this</sup> ~~is~~ going to take a little while <sup>to</sup> get the whole thing down, but from what I have told you I think you can see ~~it~~ pretty much what the situation is.

April 24, 1964

SUMMARY OF  
RECORD  
INTERVIEW

Vladimir Rodriguez  
LAHERRA

D 973-17-34

#2

PROCEDURE

What I am doing here is going over these things and trying to sort them out in different envelopes so we can get back to them whenever we need them before they are stuck away in the file. As I am doing it, I am sorting ~~them~~ out into people who are Staff Officers as distinct from people who are Agents working outside under the direction of the Staff Officers. <sup>91</sup> Of the Staff Officers covered so far we have one DETAILS ON STAFFERS whose name is Ibrahim VILA. This man is located in Prague, Czechoslovakia in the Cuban Embassy and our friend here, Rodriguez, was given a letter of introduction to him by another Headquarters Staff Officer. The Staff Officer at Headquarters who prepared the letter is better known under the pseudonym Augusto. He is also referred to as Chair, which might or might not be his true name, but he is often referred to by that name in the Ministry of Foreign Relations <sup>(MINREX)</sup>. This man is a Deputy to the Head of the Service, in other words, he is number two man in the Service and he replaces the Head of the Service named <sup>Piñero</sup> Piñero when Piñero is on trips. A Third Staffer whom we have covered up to the present time is JULIO DAMASO VAZQUEZ <sup>aka</sup> ~~Julio Damaso Vazquez~~, ~~Vascas~~ is the last name and he uses the internal pseudonym Sergio, and I will tell you a little bit more about him later in connection with one of the

April 24, 1964

- 2 -

agents. Now the agents whom we have covered, we have covered incidentally to those people who came to Cuba from other countries for guerilla training. Of these people some are selected to be agents, but (We are just taking them as we get them to keep things in order, otherwise we would be hopping around like grasshoppers.) Of those who came for training I have made a list of names. I won't go over all the names because they would not mean too much at this stage, except that what I have done here has been to note the name, the nationality, whether or not <sup>Thomas</sup> he does know them personally. The ones who not only received guerilla training but who are agents are the ones, of course, we are most interested in, and they are first of all a man whose last name is SOSA. This man is a Honduran Citizen and probably is in Costa Rica at the present time. It is the opinion of Vladimir Rodriguez here that Sosa was deported from Honduras, and they refer to his case as the "International Case" because everybody in the family seems to have different Citizenship. He travelled with his family, and the Grandmother had one Citizenship and the child had another and so on, and so it was pretty well messed up as far as <sup>nationality</sup> that is concerned. This fellow SOSA was given training as an Agent, and his training covered the use of radio, the use of code, <sup>and</sup> decipher and the use of secret writing, and he was given an accommodation address. Now this man, as I mentioned before, had a case officer and I listed the case officer or the staffer up above. I will give you the rest of the data on the staffer now.

*José Manuel Vasquez*

9. The Staffers name is <sup>Dan</sup> Bullo Demasso <sup>Vasquez</sup> with the pseudonym Sergio, and Vladimir has known him for some years. He describes him as being about 5' 5", husky, sometimes called the <sup>Latin</sup> Hawaiian because he is a light coloured <sup>Latino</sup> melatto. In addition to the training of <sup>the</sup> any Agent, the Case Officer himself has received similar training, that is training in secret writing, codes, <sup>the</sup> deciphers and radio. He also received training in parachute school, ~~the Case Officer~~. The Case Officer was trained for an assignment in Central America but he is still in Cuba. <sup>of</sup> The next case we have which is of particular interest because the man is trained as an agent is on a fellow name <sup>and Roque</sup> ~~Roque~~ DALTON, Dalton is a Salvadoran citizen and his family seems to be mixed up too because his father, now deceased, was a United States Citizen and three of his brothers are United States Citizens, <sup>one of</sup> them is said to have fought on Okinawa. He also has a sister named <sup>MARGARITA</sup> Margarita who is a Mexican Citizen and who now is studying in Cuba. Our friend here remembers this case very well because he himself was the Case Officer for Dalton and he gave Dalton six hundred dollars to buy a radio receiver, ~~and~~ Dalton, instead of buying the radio receiver, took a little trip for himself, ~~and~~ lived high, and spent the money so he has never come on the air. However, he was given frequencies which he should use for radio transmission, ~~and~~ was supposed to send on the second Monday of each Month. The frequencies on which he was supposed to communicate were filmed and then the bits of film were rolled up and put in <sup>the</sup> a false heel <sup>of</sup> on his shoes as a concealment device.

April 21, 1964

- 4 -

Now the accomodation<sup>m</sup> address for this fellow is <sup>Dr. Tull</sup> ~~Marcel~~ <sup>Rafael</sup> ~~Acevedo~~ <sup>Delgado</sup> Acevedo Blanco, and the address is <sup>D.F.</sup> ~~Delgado~~ #22, Colonia Santa Tomas, Zone 17, Mexico, ~~Eastern District.~~ <sup>the</sup> envelope and there is an envelope in the file which he <sup>has</sup> brought with him for this case, shows a return address, <sup>and</sup> Mr. Rodriguez here says that the return address in no case makes any difference because they always just invent anyone at all so that it <sup>cannot</sup> be traced back. <sup>How</sup> <sup>this</sup> <sup>is</sup> <sup>about</sup> <sup>as</sup> <sup>far</sup> <sup>as</sup> <sup>we</sup> <sup>have</sup> <sup>gotten</sup>. Obviously my interest in cases like this, live cases, is considerable because there might be a possibility of doing something about those who are still in place, so when I wrap it up here today I am going to have to do a little work to try to get these things brought to the attention of the proper people. Our difficulty in proceeding, of course, is <sup>that</sup> these things are so mixed up, that if I try to just pull out <sup>just</sup> the 'live ones' we are going to have quite a bit of confusion. I think the best thing is to sort them once and for all as I <sup>go</sup> <sup>through</sup> it and then I will always be able to get back to the <sup>particular item,</sup> <sup>to</sup> ~~proper thing,~~ explore it in a little more depth.

13

Vladimir Rodrigues  
LAHERRA

D 973-17-34

#1

TRAVEL ARRANGEMENTS

Usually (I think we went over this yesterday) when there is somebody in Cuba whether for Agent training as an Intelligence Agent or whether he is in Cuba for training as a guerilla fighter, he would be given on leaving Cuba two passports - one of which would be a Cuban passport intended to get him only as far as Prague and the other of which he would use for his travel from Prague back to his own country. He has given me these three <sup>of these</sup> passports, (I did not get into the matter of how it was he had them, and his explanation is that these three people did leave Cuba using their own legitimate passports, and the reason they used their legitimate passports in the three cases was simply that there was not time for the Intelligence Service ~~there~~ to get these three passports, which we have in hand, ready with the proper <sup>cachets</sup> cachets. When they issue a passport to cover a man's travel, they will stamp in the back pages of the passport a <sup>cachet</sup> cachet such as <sup>out from</sup> Orly Airport, France with the date that would correspond with a period during which he actually was in Cuba. They select the countries, the <sup>cachet of</sup> cachets which they will use for this purpose, in accordance with whether a man of that <sup>agent</sup> nationality would or would not have to have a visa for the country.

For example, most Latin Americans could go to France without any visa so, then, France is a good country for them to use as then they do not have to duplicate or forge a French visa. All they have to do is to put in the <sup>ticket</sup> cache for arrival in <sup>ORLY</sup> Orly Airport. They pick a number of countries like this that do not require visas and they put <sup>tickets</sup> these stamps in the back of the passport <sup>but</sup> so the individual <sup>appears to have been</sup> making trips in Europe during the time he was really undergoing his training, <sup>Keonice</sup> and in these particular instances ~~where~~ he has gotten these passports ~~they were~~ passports intended to be used but not actually used because there was no time. Something else which is quite interesting to you as well as to me is that these Cuban passports with the <sup>fake names</sup> which have five stamp digits <sup>like numbers</sup> of this type, ~~these~~ are all falsified <sup>in that</sup> the <sup>me</sup> names <sup>are</sup> falsified, all false. The five figure number stamped like this, he says, are all false. In other words the Intelligence Service there uses this type of stamp, always just five digits, and they know <sup>a passport so stamped</sup> then that ~~it~~ is one of their own passports. Another thing which is interesting, that we have clarified here today, is that the name which is used in the passport is a false name, used simply to cover a man's trip. It is not a matter of permanent record so if he were to go back to Cuba he would not use that name again.

<sup>PSEUDONYMS</sup> We talked <sup>also</sup> about the type of pseudonym which is assigned to the person ~~for instance~~ during the time that he is undergoing his training in Cuba, <sup>This is</sup> something completely different, That is his permanent pseudonym.

April 25, 1964

- 3 -

If the individual should return to Cuba at a later date he would use precisely the same one he had before. This was a matter, Vladimir tells us, <sup>requiring</sup> of some discussion, because, ~~if~~ when ~~they~~ <sup>they</sup> started out, they sometimes had assigned a different pseudonym for training <sup>purpose</sup> purposes to a fellow, but <sup>particular</sup> on his first trip into Cuba, let's say for guerilla warfare training, he was given <sup>one</sup> a pseudonym, John <sup>DOE,</sup> ~~Low~~ and then he made <sup>a</sup> his second trip and they <sup>gave</sup> had given him another pseudonym. This posed some complications because, when this happened, they would have two separate files on the same individual, <sup>though</sup> and so they had a meeting and ~~they~~ decided that, in the future, they would always keep the same training pseudonym. <sup>cases discussed</sup> Of the ones we have covered today, there is only one of particular interest. The rest are trainees and we will get all of these together at one time. [The one of particular interest is the case of a fellow who has one of the most <sup>rare</sup> rare names <sup>names</sup> that I <sup>have seen</sup> ~~ever~~ <sup>seen</sup> in <sup>the</sup> a Spanish country, Celicio DTHARINTO Gonzales Moreno. This man is an Intelligence Agent. He is a Nicaraguan by nationality. He presently is back in Nicaragua <sup>but</sup> and he uses the <sup>accommodation</sup> ~~foundation~~ address of ISABEL <sup>but</sup> Rodriguez, <sup>Pitayouan 846,</sup> ~~(stops here)~~ Altos, <sup>Colonia Naranjo</sup> ~~Nedonia Harvertai~~, Mexico, D.F., so that, in this particular case, Dtharinto would always write to this accommodation address and then that letter would be <sup>pk</sup> mailed to Cuban Intelligence. ~~Now~~ This is the only such case that we have covered to-day. <sup>VACCINATION REQUESTS</sup> The <sup>one</sup> other thing <sup>is</sup> of some interest is that everytime there is a request such as that which was in this envelope, <sup>(relating to the matter)</sup> addressed to a Doctor for International Control, on the stationery of the <sup>Instituto</sup> ~~Institute~~ of

April 25, 1964

TOP SECRET

- 4 -

*Cubano del (América)*  
 Iubano and the under-side the most prevalence which they  
 call <sup>ICAP</sup> EKAP from the initial letters, *it* indicates that there  
 is an intelligence interest in the guy. Normally, *its* a  
 Cuban without any connection with the Intelligence wanting  
 to get a vaccination for travel, *he* would have to go to  
 the police station and he would get it on police stationary,  
 but when *the request* it is arranged by <sup>ICAP</sup> EKAP, *it* this is arranged by  
 Intelligence, *and* it is a request from <sup>ICAP</sup> EKAP saying that the  
 bearer who is so and so should get a vaccination. So it is  
 indicative of some intelligence connection *between a traveller* a  
 request for vaccination on <sup>ICAP</sup> EKAP stationary. *There are a*  
 couple of *things* that are interesting *he* brought with him *and*  
 a package of cables which had been sent to the Cuban  
 Intelligence Officer in Mexico from Headquarters, or from the  
*Cubano* Mexican Intelligence to Headquarters. A couple of them are  
 interesting because they deal with the re-activation of a  
*little drop* Invedidraf or an accommodation address, *one one* and it concerns  
 precisely the *little drop* Ledidrav which is used by this fellow Elicio  
 Dtharinto, the same fellow that I mentioned before. In  
 commenting on this, *(this is very interesting)* - Vladimir  
 tells me that the signature on Headquarters' cables, Pablo,  
 which is the name for Paul in Spanish) really does not mean  
 anything except that it comes from Intel Headquarters. It is  
 not the pseudonym of a person, however the other name on the  
 cable, Eulonio, is the pseudonym used for the Intelligence  
 Chief in Mexico who *had* been *there* until the 16th. of April,  
 Alfredo Mirivalle, *and* who now will be Manuel Dago *vega* recently  
 arrived.

VEG A, the source  
 Now Vega, he thinks, will probably use a different pseudonym  
 for signing his cables and the cables will be addressed <sup>difficultly after he</sup> and  
 given a pseudonym. <sup>the source</sup> He says that Vega used to use the  
 pseudonym of Marcos but <sup>the source</sup> he believes that with his own  
 departure from Cuban Intelligence, <sup>that</sup> he will probably  
 change it now. Something else here which is of interest is  
 this letter <sup>which the source</sup> he brought from the file, dated 15th. of March,  
 1963 and <sup>added</sup> it is addressed to Pinfiero as Emua because he is  
 best <sup>for him and</sup> this came from one of the  
 sections in the Intelligence organization. It has the typed  
 name Lorenzo which is probably the pseudonym for that  
 section chief, and on the other side it has the name of the  
 desk officer for Salvadoran Affairs, in pseudonym, who received  
 it, <sup>because</sup> this was the very job that he had, and what  
 is interesting about this is that it is another clear  
 indication of export of the revolution, <sup>the writer is saying</sup> or saying this after  
 talking with the Salvadorans about the economic necessities  
 which they have <sup>to start a war</sup> to start on the insurrection in their  
 country, "We have estimated that our part of the aid should  
 be twenty-five thousand dollars approximately." And on this letter,  
 written in red ink in the hand-writing of Pinfiero himself,  
 are some questions, and he says "See what plans they have"  
 "Where do they think they will buy the arms" - "What price"  
 "See the connection of Mexico with them and see how the  
 situation is". Vladimir <sup>even though he</sup> thinks that Miravel has been the  
 Intelligence Chief, <sup>in Mexico</sup> it is possible <sup>that he</sup> could stay on as  
 Consul, although Vega who went as his replacement as  
 Intelligence Chief, would be in place, because Vega apparently  
 is senior in the Service and Vega had previously had the

*Handwritten initials*
