Esp Comment added describing <u>Ordinance Arrisance</u>. (CS-9568) I assume that the National School of Economy is a school operated by the Mex. Govt. under the Secretaria de Economia or some other Government secretariat. I could find no verification of this, however, in the Mex telephone directory, the <u>Directorio de Gobierno Federal - 1954</u> or HIS-70, Sect. 43. HIS-70 does mention the Escuela Nacional de Agricultura and Escuela Nacional de Salubridad y Higiene and mentions that sev other secretariats had organized special schools. Is the Escuela Nacional de Economia one of these?

Since no info has been found re March 1959 activities, it is assumed that there were no activities of note. According to HM A-12584, LIMBRICK operated in March.
Consolidating info for three months is a good idea. To speed up the report on Jul-Dec 59 activities, possibly you can submit all the info in one report.

GR-3/369,854 reported that in August 1958 the Soviet Commercial Office was interested in obtaining information on the Mexican paper industry, including all available information on PISA, such as credits, preference for importation, and income.

GR/pts commented as follows: The Soviets have been trying to promote newsprint sales in several areas without much success. His report should be of interest.

KULBEX says Subj of not in of little importance to their needs, contributes liberally to their knowledge.

2 HMI's combined. (Actor's name: Shoggy Portier, rather than Fortier.) Source description changed to protect source. Subject of report changed as above to avoid implication that the Mex. Govt. and/or the Soviet Union will co-produce the film. WFM-1579 does not state that the Soviets have agreed to co-produce the film - merely that GUILLOTEZ, a Spanish refugee employed by a film company in Mexico, was trying to interest the Soviets in joining in the production of the film. WFM-1582 does not clearly state whether the Soviets have agreed to co-production. Does the fact that "Leontyne Price has accepted their offer" refer to the film company's offer rather than a Soviet offer? Hqs agrees that is doubtful.

<p>Re Field's Comments: Did the PR ever publish the revista Mexicana reported in 1955-3070 October 1957? It wonders if this may be revista Problemas Articulos e Industriales Mexico published by Manuel Rendon. de revista Mexicana, director Alberto C. Cordero, of this report HMM-4649 - 148 cannot find it in current telephone directory. Seems strange if it has been in existence since 1955.</p>

KIPONK eval: Of major importance, contributes moderately; accuracy credible; useful new info; no defect affecting usefulness. Report is important as we are interested in any Cuban efforts to circumvent US export embargo and to secure, from other sources, imports formerly obtained in US. Info on fieldcar, auto parts, refriger machinery and airplane parts was particularly interesting. Agric. imports shld be available to Cuba without great difficulty but machinery and spare parts will be harder to obtain. We know that Cuba is making every effort along this line and that negotiations are taking place. As we are most interested in its success or failure of these negotiations. Any inf. on final outcome of the activities report here, or outcome of this negot, wld be of considerable importance.

HMA's should not be mentioned in Field Comments because INOC has no record of dispatches. In such cases, when HMA's are mentioned as Field Comments, INOC does not dissem but sends the intel cable to the desk for action, which delays the dissem.

You will note a slight change in the source description. Please continue describing sources as you have in the past. This slight change will be covered in a new field instruction which will be distributed soon.

 Headquarters Comment added: Anis Corot is probably identical with Anis Sharif, member of the Bureau of the WFO and secretary-general of the Iraqi Peace Partisans, who was in Mexico as a delegate to the Latin American Peace Congress.

FI: The Afro-Asian Solidarity Organization, which is in sympathy with the WFO, is holding a high level meeting in Bandung, Indonesia, in April. This group has been trying to develop Latin American contacts for the last year. The Secretariat of the group is located in Cairo, Egypt. Headquarters is unable to determine if the travel by the persons mentioned in this report is related to the facts mentioned above but does have a great interest in any contacts made by the delegates. His would appreciate any info which comes to your attention along these lines. His will also keep you informed if any comes to our attention.

Dept of Commerce Eval., subject of this report is of moderate importance; contributes substantially to knowledge of Subject; accuracy can not be judged; at present we lack other information to judge accuracy or usefulness; no defect affecting usefulness; collection needs our minimal needs;

Evaluator's Comments: We do not have information that would confirm or deny the validity of subject report. We do not have information confirming the recent personnel shifts described, but we are aware that the named Mexican firms engage in Bloc trade. Available information (or the lack of it) indicates that Mexican-Yugoslavia trade is rather limited and insignificant. Most recent trade statistics this matter contained in Embassy, Mexico A-1100, dated February 28, 1963 (Your organization received 16 copies). Relative this matter, it may be pertinent to consider Mexico's President Mateos' visit to Europe. Yugoslavia is included in his itinerary, presumably to explore the possibility of increasing trade with that country (Washington Post (B-27) March 9, 1963). Conceivably, Mateos' Yugoslav talks may open up other sources of information on this subject.

This report was not disseminated. (1) It would be normal for an Ambassador to attend the inauguration of a president of a country to which he is accredited, and to visit other countries to which he is also accredited, and (2) not only was it of marginal value, but a delay in processing here resulted in its security outdated.

Your request for up-rating; source was noted. Be concise in your recommendation (See above)

It was also noted that you up-rated source on this report. CR. CR. 51-1-1, Chapter 11, 21- source should not be up-rated until counterintelligence is complete.

Activities of the Communist Party
Central in Baja California

Subject was changed to include results of the field investigation of the Central Intelligence Agency in Baja California National level. Source described the activities of the Mexican Communist Party in Baja California. Manual regarding this report was received in Mexico. Change was made in the report to reflect that comments were made at this time. The field office did not seem to add to the information. The report was rewritten to reflect the change. Report was made on 10/16/64 because of the change in the report description.

COMMENTS (REASON FOR REJECTION, CUSTOMERS AND DESK EVALUATIONS, SPECIAL DISTRIBUTION OR LEAD NOTES, COMMENTS TO FIELD, ETC.)
DOI was changed to 16 October 1964, based on text of info. report. Subject was changed to: Travel Plans of Marta Borques de la Fuente, Mexican Delegate to Meetings of Executive Council of Women's International Democratic Federation in Sofia, Bulgaria. The sourcing of this report was broken down by paragraph, giving LIFEAT/1 as source of para. 1 and LIFEAT as source of para. 2. Control of HQ: HIGH DISSEM was added because of LIFEAT info. The field sourcing was a little confused since only one source description was given: Usually reliable source with excellent contacts among Mexican Communist Party leaders. Hqs dissem deleted Field Consent reference in para 2 to employment in Ministry of Foreign Relations in Greece. In view of Borques' trip to Bulgaria and fact that Bahr was born in Varna, Bulgaria, it seems more likely that Bahr is employed in the Bulgarian Government. This comment was added to the report.
