6. SS records on Nikolay Yakovlevich ALERUV (EOL-175,514) include an identification of his photograph (not by name) by BERNARDI. BERNARDI said he was probably identical with an officer he info to have been in the IED First Directorate (Foreign Directorate) as of the 1952-53 period and was possibly assigned to the American or British Department. An individual by the same name was identified as a communications intelligence unit officer attached to the East Indian state security residency as of the 1955-56 period. The Canadians reported (CASA-3620, 10 November 1958) that ALERUV's trip to Canada in 1957 was for the purpose of carrying an agent in Canada "recruited" by the IED legal residency in Delhi. The agent, under Canadian control, was to have visited India for further recruitment and development. This operation was later dropped by the Canadians.
