SUBJECT

E.O. 11652 -- Richard D. Mahoney (E 76-124)

A. Initial Request dated 8 January 1976.

B. GSA Referral Letter w/att. dated

19 April 1976.

C. IPS Reply dated 26 July 1976.

D. Appeal Letter dated 15 August 1976.

1. Summary of Recommendations: Sustain the initial determination to deny the document in toto under provision 5(B)(2) of E.O. 11652, as amended. Add provision 5(B)(3).

2. Background:

a. On 8 January 1976, Mr. Richard D. Mahoney requested a mandatory review of two classified CIA documents under provisions of Executive Order 11652 Section 5(C). The documents were in custody of the National Archives and Records Service (NARS) in the John F. Kennedy Library.

b. On 19 April 1976, the NARS referred Mr. Mahoney's request with copies of the documents to CIA. The Agency was asked to review the documents. If declassified, they were to be marked appropriately.

EZ IMPDET CL BY 012170

SECRET

If they remained classified, the Agency was requested to cite the applicable exemption category from Section 5(B) of the E.C. and a date when automatic declassification may be accomplished. They requested that the copies of the documents be returned with the Agency's response.

c. On 26 July 1976, IPS wrote to the NARS and returned copies of the documents. Both documents were found to require continued classification under E.O. 11652 Section 5(B). However, a sanitized version of Item *1 was found possible and was enclosed. NARS could advise requester of his right to appeal directly to CIA.

d. On 15 August 1976, Mr. Mahoney wrote to the CIA and appealed the decision to withhold from declassification Item #2 of his request.

3. Recommendations:

a. Tab B-2 contains TDCSDB 3/657,851 dated 12 November 1963. During the initial review, the document was denied in toto to requester under provision 5(B)(2) of E.O. 11652, as amended. The document is based on ACL-1832 dated 10 November 1963. I recommend that the initial determination to deny the document to the requester in toto under provision 5(B)(2) of E.O. 11652, as amended, be sustained and that provision 5(B)(3) of E.O. 11652 now be applied. The information is from a sensitive source with unique access to a political leader. If released, the information could cause embarrassment to the United States Government and exacerbate relations with a friendly foreign government.

b. During the DDO appeals review, a classification review was conducted. The document is properly classified and properly marked in accordance with the provisions of E.O. 11652, as amended. Due to the sensitivity of the subject matter, a meaningful sanitization cannot be made.

SUBJECT : Executive Order 11652 Appeal -- Richard Doyle Mahoney (E 76-150)

REFERENCE: A. Initial Request from NARS dated 10 May 1976 with attachments.

B. 1PS Reply to NARS dated 24 June 1976.

C. Appeal Letter, 23 September 1976.

1. Summary of Recommoniations: Sustain the initial determination to deny in tolo TDCSDB-3/650,740, an intelligence report originated by Paris Station dated 19 September 1808 under exemption 5(B)(2) of Executive Order (E.O.) 11682, and add the claim of 5(B)(3) of E.O. 11652.

2. Background:

a. Richard Doyle Mahoney, a member of the public who is identified as a researcher, initiated on 8 January 1976 through the John F. Kenn dy Library a mandatory review of TDCSDB-5/056,740 to accordance with the provisions of E.O. 11652, Section 5(C). The request for review was forwarded to IPS via the National Archives and Records Service (MARS) on 10 May 1976.

b. IPS responded to MARS on 24 June 1976. Among other things, CiA denied in toto TOCSDB-3/656,740, which was Item 9a on the NARS request, ou the ground of Section 5(B)(2) of E.O. 14652. The

reply stated that the document had to remain classified indefinitely in order to protect intelligence sources and methods, and stated that release of segregable portions was not feasible. This was based upon a classification review by a knowledgeable officer dated 24 May 1976.

c. Mr. Richard Doyle Mahoney appealed this determination directly to IPS in a letter dated 22 September 1976. He specifically asked if it would not be possible to release a sanitized version of the document without jeopardizing national security.

3. Recommendations:

a. See the Appeals Review Forms for specific detailed recommendations.

b. A second classification review was requested by DDO/ISS/PICG. The second review was conducted on TDCSDB-3/656,740 on 22 December 1976 by Europe Division, which decided to retain the classification at Secret in accordance with E.O. 11652. Europe Division determined after review that there were foreign policy and liaison sensitivities which precluded downgrading TDCSDB-3/656,740, or sterilizing the document and releasing portions thereof, at this time.

sturope Division determined that it was also necessary to protect sources and methods. The source is currently active, and methods. The source is currently active, and meess to information in the document about the French security sorvice was sufficiently limited and current disclosure of that information would an fact be filely to point the finger of suspicion at a relatively small group of percential sources, one of whom is source. Failure to protect this source would in then iconscious City colutions. this source would in turn jeopardize CtA relations with current and future sources.

2. Background:

- a. On 22 July 1975, wrote to CIA and requested all and any information concerning her maintained by CIA under the FOIA. She provided some biographic information and asked that any fees be waived.
- b. On 15 December 1975, IPS/DDA advised DDO that two documents had been referred to CIA by the FBI.
- c. On 19 March 1976, IPS wrote to and enclosed sanitized versions of four documents, three of which were DDO documents. Deletions had been made under (b)(1), (b)(3), and (b)(6) of the FOIA. Two additional DDO documents (those referred by the FBI) were denied in toto under the same exemptions. The exemptions were explained, the denying officials were identified by name, and was advised of her right to appeal.

was also advised that FBI and INS originated material was being referred to the FBI and INS for their direct response to her request.
[N.B. When IPS listed the four documents they erroneously listed the Deputy Director of Security as denying document 1 and Chief, Services Staff as responsible for documents 2, 3, 4, 5, and 6. In fact, the Deputy Director of Security was the denying official of document 4 and Chief, Services Staff for documents 1, 2, 3, 5, and 6. OGC should point out and correct this error in their letter to requester].

- b. As stated in Paragraph Ic above, I recommend that OGC, in their letter to requester, correct the previous error in identifying the deciding officials.
- c. Document B-6 is a CSCI that transmits an accumulative machine listing to the FBI. This document is updated periodically and previous listings should be destroyed. I recommend that OGC advise requester that document B-5 supercedes document B-6 and contained the exact same information. I further recommend that IPS draw this matter to the attention of the FBI so future duplicate referrals may be avoided.

Dear Sign

This is a request under the Freedom of Information Act, 5 U.S.C. 552, et. seq., on behalf of A Quaker Action Group (AQAG). We, the undersigned, were the authorized officers at the time of the dissolution of the organization.

We request that you provide us with any and all records, documents, memoranda, letters, or any other type of kind of information concerning our group that is currently on file, in possession of, or maintained by your agency.

The full name of the organization is A Quaker Action Croup. It was also known by its initials, AQAS. The organization was established in 1965 and existed until 1971. The main office was maintained at 20 south 12th Surget in Philadelphia, PA.

If for any reason you determine not to forward to us any of the information that we have hereby requested, to further request that you identify the nature of the information withheld and the reasons for your actions.

As you know, the amended Act permits you to reduce or weive the fees if that "is in the public interest because furnishing the information can be considered as primarily benefiting the public." We believe that this request plainly fits that catagory and ask you to this any fees.

As provided for in the amended Act, we will except to receive a reply within 10 days.

2. (U) Background:

- a. Subject submitted a request under FOIA, on 22 March 1976, for any and all information the Agency held on "A Quaker Action Group" also known as "AQAG." In the 20 July 1976 initial response, 24 newspaper clippings and one leaflet were released to him; two documents were denied.
- b. On 23 August 1976 Subject appealed, requesting that further information be released to him on the group.
- c. During the appeals review 11 additional documents were located and are included in the recommendations below. These documents were not considered during the initial review since they were not considered to meet the criteria for "records" extant at that time and they contained only incidental references to the subject of the request.
- d. During the appeals review we were unable to identify any Air Force documents concerning the subject of this request. The requester should be told that this was apparently an error.
- e. During the appeals review we were unable to identify any Department of State documents concerning. A Quaker Action Group. Two State documents located, and possibly referred to in the initial response, do not concern A Quaker Action Group. The requestor should be informed that this was also apparently an error.

3. (C) Recommendations:

- a. My specific recommendations are shown on the Appeals Review Form attached to each document. A classification review has been conducted and all documents are considered properly classified and marked in accordance with E.O. 11652, as amended.
- b. I recommend that the two documents denied in toto under the initial review continue to be denied. One of them (Tab 3) could identify a still active and sensitive source. The other (Tab 4) was obtained through a sensitive operation conducted jointly by American and German authorities.

- I recommend that portions of ten additional documents located during the appeals review be released. Exemptions (b)(1), (b)(3) and (b)(6) should be cited, as applicable, to the denied portions. Specific recommendations on each of these documents is reflected in the attached Appeals Review Forms. (Tabs 3-14).
- d. One additional document located during the appeals review should be denied in toto, since it was received from a foreign liaison service. (Tab 15).
- e. 88 FBI documents located during the initial review, but not referred to the FBI, should be referred to the FBI in writing for review and direct response. These documents are listed under Tab 16.
- f. One Department of the Army document should be referred in writing to them for review and direct response. The title page and a description of the document are attached as Tab 17.
- g. Five items from NSA have been referred to them by HPS for review. (Tab 18).
- h. Several other documents turned up during both the initial review and the appeals review should be considered not responsive to the request since they refer to the generic term "Quakers" but not to "A Quaker Action Group" as specified in the request. (Tab 19).

MEMORANDUM FOR:	Freedom of Information	Officer, DDO
SUBJECT:		
RI FERENCE:	IRS 75-801 (Appeal)	
	Request for Agency docs	ments

- 1. Attached are the three Agency documents listed in our memorandum of 14 May 1975:
 - a. Agency dispatch HNMA-37416, dated 23 June 1969. This covering dispatch does not mention Subject by name; Subject's photograph was forwarded as an attachment to this dispatch. Two other attachments listing Subject's name on two flight manifests are not available here, but the reference to his travel from Mexico city to Cuba had been incorporated into a Special Channel memorandum to the FBI, 8-561, dated 11 August 1969 (paragraph id of our 14 May memorandum).
 - b. Agency dispatch HMMA-37509, dated 10 July 1969 listed requestor as a traveler to Cuba and listed his passport number. It also forwarded a copy of his passport in an attachment which is not available here.
 - c. Special Channel Memorandum B-561, dated 11 August 1969 (see paragraph la above).
- 2. We believe that the above mentioned documents have been properly exempted in our 14 May memorandum under (b)(1) 5(B)(1) (foreign liaison, in this case, two sections of liaison) and (b)(3). The material is not segregable for release, as the nature of the information and its format are such that the requester could determine that the information concerning him was obtained by the Agency through surreptitious access.

Release would thus violate protection of sensitive sources and methods

5. One more document (not indexed into the 201 file or
any other records of this office) has become available:
Transmittal Manifest 599888, dated 28 August 1969
This manifest lists Subject among passengers
arriving from Cuba. No covering dispatch was used
and no source is given, but the information may be presumed
to have been provided by foreign linison The
material is thus probably exempt under (b)(1), 5(B)(1)
(foreign Tinison), and is certainly exempt under (b) (3)
(intelligence methods). The format and the nature of the
information do not make it feasible to segregate and release
it

-{
4. Attached is a segregable portion of internal Agency
memorandum EX-3663, dated 24 October 1969. This document is
a 25 page paper and
refers briefly to requestor, repeating in part the reference
to requestor's travel as reported in MMA-37509 (paragraph
th above).
The excised portion of the document is considered
exempt under (b)(3)(a) and (b)(6).
5. Also attached are copies of three additional Agency
cables. 330, dated 24 June 1969, is referred to
in HMMA-37509 (paragraph to above), and provides the same
information (except for copies of passports). The reference
cited in this cable, in turn, is Headquarters 876, dated
24 June 1969, which requested that names and passports of
groups traveling to Cuba be cabled, as the information was
urgently needed for a paper being prepared for the White
House. This cable in turn refers to 329, dated
23 June 1969, which explains the reason for the investigation
of requestor's foreign travels. Although Headquarters 876
and do not mention requestor by name they
are attached for background information.

MEMORANDUM FOR: Chairman, Information Seview Committee (U)

ATTENTION: Ur. II. G. Rean, Assistant for Information (U)

SURTECT : 101A Appear (F 75 (161) (U)

REDERENCES : A. Original Request dated 11 April 1975 (9)

R. 1PS Response dated 19 February 1976 (U) C. Appeal Letter dated 24 February 1976 (U)

1. (U) Summary of Recommendations:

a. Release additional information from Six DDO documents initially released in segregated versions.

b. Release portions of eight 690 documents initially

- c. Sustain the denial in toto of 13 000 documents.
- d. Release in toto nine news items and seven DDO documents discovered during the appeals review.
- e. Dony in toto 18 PDO documents discovered during the appeals review.
- f. Release segregated versions of two 000 documents discovered during the appeals review.

2. (U) Background:

a. on 11 April 1975 requested "any material or files the CIA may have collected and kept en may activities." The original DDO search surfaced 27 DDO documents, 29 FBI files, one FBI cable and three otheragency documents. IPS responded on 19 February 1976

Beether Machine Constitution of the second

releasing six of the DDO documents in segrecated versions and denying the remaining 21. IPS advised that the non-DDO documents were being referred to the originating agencies for direct response to him.

b. appealed on 24 February 1976 requesting full release of all withheld data, and this triggered an additional search with the following results:

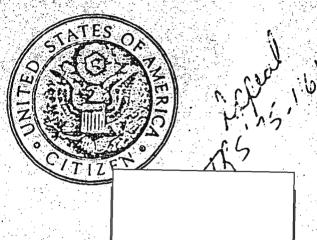

- (1) Nine press items, not considered under earlier guidelines were located.
- (2) As a result of an exchange of referrals between the DDO and the O/S, DDO accepted responsibility for five documents not located during the initial review--i.e. those covered by Tabs 28, 30, 32, 33 and 34.
- f3) As a result of a Privacy Act request levied on the FBI, the latter referred three DDO memoranda, per P 76-180. Two of these--CSCI 316/02677-67 and CSCI 316/05757-67-had not previously surfaced, but the third had been handled initially under Tab 19(H). We informed the FBI we would handle the former two in the appeal.
- (4) In addition to the documents discovered per (2) and (3), 17 DDO documents were located through re-checking files and running down references. These additions have resulted in a total of 51 DDO documents being treated in this appeal, an increase of 24 since the IPS response, and nine presentems.
- (5) Four EX memoranda--895, 1070, 2187 and 3363-were referred to the FBI on 5 October 1976 for
 coordination regarding FBI information therein. The
 FBI replied on 28 October 1976 regarding portions to be
 withheld and exemptions to be applied.
- (6) FJTA-48,789 dated 6 December 1965 (Tab 20) was referred to the US Air Force on 5 October 1976 for coordination regarding Air Force data therein. The Air Force responded on 29 October 1976 releasing its input.

- (7) Three FBI files, in addition to those uncarthed during the initial search, were discovered. DBC 02629 and DBB-89223 were referred to the FBI on 5 October 1976 for direct contact with the requester, and DBD-24857 was similarly forwarded on 26 April 1977.
- (8) Three State Department documents were forwarded to the Bureau of Public Affairs on 1 October 1976. Two of these were State memoranda addressed to the CIA. Passport called on 26 October 1976 to advise that both had already been referred earlier. The third document-Tab 21(0)--was cleared for release by the same telephone call.
- c. A classification review has been conducted on all DPO documents involved in this appeal, and all have been marked to reflect this review. In those cases where segregation of non-exempt data has been possible such has been identified and recommended for release In those cases where the documents have been denied in toto, meaningful segregation of non-exempt data pertaining to him has not been feasible.
- 3. (U) Recommendations: See Tabs 12-48.

Preedom of Information Act Robert Young CIA Cordinator CIA Washington D. C. 20505

Dear Sire;

I have reason to believe the CIA may have a record file on me.

In 1961 I was a member of an Anti-Castro group in the Florida Keys. And resided on No-Name Key in the Florida Keys for a time.

Since I was a devote anti-communist at the time and participated in a raid or two (that never accomplished anything), I'm courious to see if anything is in print regarding my so called 'wild outs! days and under the Freedom of Information Act I hearby respectfully request a copy of any possible files on me.

Respecti	ully
