DISPATCH

17/120/14

JCG DIRE yr

CONFIDENTIAL

Section : 1. 74

Asset : Directorio Revolucionario Estudiantil (DRE)

Case Officer : Harold R. BENEATE

SECRET

Despite reports and accusations to the contrary (WAVE 1779), the Student Revolutionary Directorate is responding to KGB/USIA guidance and control with increasing flexibility. Their withdrawal from the AMBASS commission (WAVE 2066) and subsequent condemnation of prisoner releases (WAVE 1779) has been a direct result for their clandestine organization within PERU/CHILE as well as to their operations of KGB/USIA qualified support: namely, closer scrutiny of funding, limited and professional infiltration of their agents, and denial of support for their independent maritime efforts. While some 10 of their fully trained AMBASS infiltration agents are still waiting the clock and booby, the DCI Executive Committee has turned to the AMBASS project for some imaginative and effective operations.

1. AMBASS PROJECT:

1. Support and Progress:

- a. Total number of candidates processed to date: 75
- b. Total number assigned: 40 (See attached Status List)
- c. Total assigned during April 1962: 3
- d. Total Financial Support: Substances: \$12,100.00
Operations: 1,500.00

2. Operations:

- a. By 9 April 1962, the radio network by AMBASS directed against the cables area had been increased to 11 countries and totaled about 100 programs per month. (WAVE 3733)
- b. Since 13 April, AMBASS delegates to 15 countries have sent about 66,000 leaflets with a 35-minute and address list for cables area mailing operation. (WAVE 3811)
- c. Excerpts from Ambassador Press and reports from AMBASS Chile and Venezuela have indicated that much of the public interest and agitation for Ecuadorian break in diplomatic relations with PERU/CHILE was generated by AMBASS agit/prop operations which began with the dissemination of 10,000 leaflets the presidential palace in January. (WAVE 1601)

- d. On 21 April 1962, AMBASSADORS and 60 reported that their of a Soviet cell phone at the national airport in Montevideo. This was turned over to the Montevideo Station contact and WAVE is checking on this currently.
- e. Acting on Headquarters proposal (DIR 04035) to send a student agit/prop through eight countries in Africa in preparation for forthcoming student congresses, an AMBASSADOR team of four is preparing materials, documentation, itinerary, action plan and contacts for this tour. (WAVE INFO, WAVE 3057)
- f. During April, in Venezuela, [redacted] (an AMBASSADOR station by Station) and AMBASSADORS (requested by station) continued training and organization of Action Democratic youth in guerrilla warfare and anti-communist tactics. This activity is reported under station direction.
- g. In Ecuador, the "Action Anti-Communist Roadrunner" organized by AMBASSADORS and 60 is now estimated to total about 5,000 persons with detachments in each major city in Ecuador. For station into the higher levels has reached the stage that FBI and WAVE group is being translated and printed in the "Municipal" bulletin board.
- h. In Uruguay, the "Movimiento de Liberacion Moral" university is organized by AMBASSADORS, 10 and 60 has now generated all faculties of the University in their struggle against the Communist dominated FRO (Federacion Revolucionaria Universitaria Uruguay).

3. Risks and Potential:

- a. Financial support to the AMBASSADORS project must be accelerated for operations. There is an evident lack of proportion between salaries and operational funds, especially in view of their potential as recognized by CIA, Task Force W and AMBASSADORS.
- b. AMBASSADORS as a station has not recognized the urgency of assignment of case officers for AMBASSADORS development alone. All station activities at present are centered to the processing and the operational potential is neglected.
- c. When WAVE is properly staffed and AMBASSADORS are full strength, the following potential exists:
 - 1. Third country operations against the denied area for intelligence
 - 2. Third country operations against the denied area for activities, agitprop, and generation of international propaganda to the USSR.
 - 3. Joint student and youth organizations with overt and covert activities designed to neutralize and combat communist penetration in schools and universities of all Latin America.

YAV

and continuing program of industrialization of all areas in such country by a stream of a PEARSON section that has actually suffered Communist take-over.

5-black operations against the devalued area and within the host country.

II. AMINTS

1. Support and Processing:

- a. Financial support for AMINT operations in PEARSON for April consisted of \$7,000.00 sent in through the black market exchange. \$25,000.00 needs have been vouchered and are awaiting infiltration of AMINT scheduled for 10 May 1952. During April \$725.00 was sent in \$25.00 money orders for funding families of AMINT members in their departure.
- b. AMINT's courier a message to Miami requesting a list of electronic supplies for two small radio sets and preparation of electronic detecting devices. AMINT is working on procurement of these items which are to be sent in partly in diplomatic pouch and partly in infiltration operations.
- c. WARD was processed AMINT-71 as their top dog who is expected to begin training by the end of April. Subject is in the process of evaluation and LOFUTTER.

2. Operations:

- a. AMINT clandestine team spent the first week in April pasting black BAE signs in Havana, Yaguajay, Marianao, co walls and cars.
- b. Also during the first week, a bomb was exploded in a Casagrey college setting fire to the auditorium.
- c. During early April a bomb was exploded in front of the Marielao Municipal government offices.
- d. A report from their Action team in Havana Province indicates their left cache of 400 lbs of C-4 plastic is almost exhausted.
- e. During the entire month of April, AMINT skidivers have worked along the north coast of Matanzas collecting operational intelligence for forthcoming supply operations. This information should be available sometime during May and June.
- f. During the third week in April, agit/prop teams pasted BAE signs on automobiles throughout the general greater Havana area.
- g. During the first two weeks, more than 10,000 copies of "Telenoche" the official BAE organ, were printed and distribution in Havana, Matanzas, Pinar del Rio and Oriente.

- h. AMINT prog teams are printing CAS "codes" (funding certificates) in small concentrations for internal support.
- i. A courier message requisitioning electronic supplies for small radio pilots and electronic decoders is currently being studied for procurement by AMINT and will be shipped in by diplomatic pouches and infiltration when procured.
- j. AMINT action teams in Northern Matanzas are buying cans and homemade fuses using small candles as time delay igniters.

h. Training:

- a. AMINT-53 entered clandestine tradecraft training in preparation for his PSEBEM infiltration scheduled for about 18 May 1952.
- b. 14 Trained AMINTS awaiting infiltration in Miami have been procuring weapons locally and going out into the overgrown areas for small arms practice, and holding classes on general theory review of their training on sabotage, demolition and guerrilla warfare.
- c. AMINT maritime section has a secure base at Miller's dock in Marathon where they have their SIBIR II berthed. They have crew quarters and have fully equipped the vessel with the exception of food at their own expense. On 15 April a shakedown run was made from base to Gibco for Tampa, Yagadero and Cardenas areas and return to base. All equipment operated well and AMINT-40, 21, 42, and 43 were on as crew. If USMC support for their operations is not approved it can be expected that they will make every effort to operate independently and without the vital coordination for such operations.

HAROLD R. SOELAYA
