HQD-3523

TO : Chief of Station, Havana	PRIORITY
FROM : Chief, KURIOT	DATE 23 JUN 1960
SUBJECT : AQUATIC/Operational SW Supplies for AMEREL	REF. "423" - CHECK AT CMC MARKS FOR INDIGENS NO HAZARD REQUIRED INSECTICIDE WILL BE JUDGED BY QUALIFIED P.D. OR C.G.L.
AGENCY ORIGINATOR	

circumstances

: HAVA - 4289, 17 June 1960

1. The SW supplies and instructions needed to establish two-way SW correspondence with AMEREL are transmitted herewith. We realize that some of the instruction forms and supplies which are being transmitted are duplicates of those sent to the Station in support of other operations. However, in order to facilitate the handling of each operation, the supplies for each are furnished as a complete unit. This will preclude the need for borrowing from one agent's supplies to outfit another.

99

2. AMEREL will write to the Case Officer

A supply of the developer material, in quantities sufficient for training purposes, accompanies this dispatch.

3. According to the WII operational plan, SW messages written by AMEREL will be mailed to accommodation addressees in various Latin American countries. In accordance with that, KURIOT will provide the appropriate [] with the materials necessary for developing the operational messages.

4. AMEREL will develop the SW messages he receives by means of []. He should be issued [] for that purpose. It is recommended that the agent be told to hide his developer materials in a safe place. This should not present much of a problem because []. We do not generally recommend that []. Even in cases where the SW ingredient

[] and thus there would be a danger of having an unwitting person use them by accident. If the Case Officer feels that for operational reasons it is desirable [] they should only be kept in a bottle which is clearly marked []

5. According to the operational plan, the Case to agent SW messages will be prepared for the Area Division by KURIOT at Headquarters. The Area Division will pouch the SW messages [] to the appropriate Field Station for mailing.

6. The AMEREL Case Officer should familiarize himself with the accompanying supplies and instructions before any attempt is made to train and issue supplies to the agent. Experience has shown that it is advisable to plan for two or three short (2 hour) agent training sessions scheduled over a period of days, rather than to attempt to cram the training into one long session.

7. Special attention should be given to planning the cover correspondence. It is usually recommended that the agent use [] on his SW messages to the Station, thereby [] completely from his SW reports once they are in the mail channel. This requires that the correspondence be fictional, and entails a certain amount of skill on the part of AMEREL in fabrication. Apparently [] We have found that the use of [] frequently provides the agent with considerable psychological reassurance during the course of the operation.

8. The cover/

(- 111)

8. The cover correspondence must in no way appear to be different from the bulk of mail ordinarily found in the channel being used. It should contain no information which could be viewed as suspicious in any way. The external aspects of the correspondence must be innocent in all aspects if the SW is to be expected to provide any level of security.

9. We have found that the reliability of any SW system depends nearly entirely on the care with which it is used. Please stress the need for careful writing techniques in your agent training sessions.

10. The following supplies and instructions are transmitted in support of the SW operation:

a. Standard Form [redacted] which describes in detail how to write [redacted] 99

b. One [redacted] labeled [redacted] is to be used to demonstrate the principles of [redacted] writing. The development process for this system can be carried out in the agent's presence.

c. One [redacted] which will develop the demonstration [redacted] writing. 99

d. Instruction [redacted] describing the development of the [redacted] 99 99

e. [redacted] The one labeled [redacted] is to be used in training and is to be retained by the Station. 99 are to be issued to the agent. The agent should not be allowed to [redacted] 99

f. Instruction [redacted] specific instructions for the development [redacted] 99

g. [redacted] to be used to develop practice and real messages written 99

h. Two practice messages written with AM(FRE) s ingoing SW system which he should use to practice his development technique.

i. [redacted] which AM(FRE) will use to develop the SW messages he receives. Two or three [redacted] should be used in training. [redacted] should be issued to the agent. 99

j. Instruction [redacted] instructions for the use of [redacted] 99

k. One copy of the "Station Maintenance of SW Supplies form." 99

l. Miscellaneous items such as [redacted] items generally useful for SW processing.

ll. You will note that two different kinds of [redacted] have been submitted with the supplies. One is labeled [redacted] 99 This should be used in the practice session only. It should be used to demonstrate [redacted] writing techniques to the agent. This system can be developed in the agent's presence. The other [redacted] constitute the agent's operational sending system. [redacted] has been labeled 99 After the agent has mastered the use of the [redacted] 99 he should be given an opportunity to write with the [redacted] 99 It is very important that the Case Officer have the chance to critique the agent's SW writing technique with the actual system which the agent will use. However, the agent

should not be allowed [redacted] 99
 [redacted] nor be shown the [redacted] The [redacted]
 [redacted] should be carried out at the Station. If the Case Officer [redacted] that the
 training messages written with the operational [redacted] No [redacted] that
 the agent's technique is poor, he should use [redacted] of the [redacted] used
 messages to point out to the agent those areas where improvement is needed,
 or he should just discuss it verbally.

12. The Station should retain the [redacted] the [redacted] 99
 [redacted] and the rest of the supplies. Please bear in mind that all enveloped
 messages and working materials should be treated as classified.

13. Please do not hesitate to request additional help from [redacted] as
 needed.
