2.2 In. WO, calling from Finnish Embassy, with Rojas (v), who answers. Finnish Amb. wants to talk to Dr. Hernandez Armas. He has gone to Cuba, but they can talk to someone else. The phone number of his secretary is 14-42-37.

2.5 Out to 35-54-12. Rings once and cuts off.
Out to 35-54-12, at 1205. Felipe Rojas asks WO, who answers, for Max (Rojas).

Max takes phone. Aparicio came by Embassy. Said that tomorrow at 1700, Saturday, about 5 persons will meet there (at Cuban Institute). One of persons who will be there is Dr. Castro Villagraua and Aparicio. Max thinks he could be there. Will Rojas be at the Embassy in the morning? He can come in. Max could let Felipe know if he could go at 1700 or not. Or he does not go in, call Max around noontime. Max would not be able to go only in case the Dr. told him he had to go to bed. The Institute has not been swept, but it is not very dirty since not many people have gone there.

3.2 In. Wrong number. Rojas (v) answers.

3.5 25-07-95. Rojas with Consuelo Esperon, who answers, for Bertita. They would like to see if anything came in in the pouch - a reply to Sr. Caruso, who phones them daily (about this).

No, CE has not received anything in the notes given to CE, but will see if it is somewhere else. Can't find Bertita. Can call Rojas when she comes in...One moment.

Bertita comes to the phone. S. Caruso phoned again asking about his case. Explain that since there was no airplane and there was nothing on Monday, they couldn't have a reply (yet).

After 1230

4.2 In. Wrong number.

4.5 In, 3 times. No answer, complete. Sr. Caruso with Rojas, who answers. There is nothing new yet. Probably won't have anything until next airplane comes in. Normally flight comes in today, but R. is not sure it came in. Best he call Rojas back on Tuesday. C. will come by on Tuesday.

5.0 In, twice. No answer, complete. Aparicio (v) with Rojas (v), who answers. Ap. has "this ready" for payment of the...Yes, but (someone) did not pay (checks). They did not accept the bill and said best to wait until next bill (electricity). Then, ask them to bring his money back to him. He needs money until next bill comes in. Jorria has the money...Left about \$100 pesos (to pay the bill).

Rojas has an invitation for theater tomorrow...children's theater. That is very important. Take it by to Aparicio.

Did Rojas talk to ~~Aparicio~~ Max Rojas? Yes, and he said he would try to be (at Institute), but Felipe should phone him tomorrow.

Alberu was there (yesterday) afternoon and A. talked to the Secretary (of Commission), Sr. Allende. Yes, but the Embassy told them that Alberu would go by this morning and this is why they have been waiting for him. That was an error.

NO asks if Sr. Sinova (ph) is in Mexico. Alberu does not know. NO was told that he might come in today, that he has been attending some congress. Alberu will ask him call them.

11.7 contd.

MO says that they are very interested in talking to Alberu. If Alberu can't come to see them, perhaps he could indicate a place where they could get together. Alberu could go by there to see them at 1500. Couldn't they go to see him right now since they have a lot of things to see and do after seeing Alberu and even depending on the conversation they have with Alberu and people of the Embassy. Meanwhile, they are waiting (about going to Cuba)? If they like, they can come by the Embassy. Alberu will wait for them. They will come by right now.

6.7 In. MO with Alberu, who answers, for the Cultural Attache. A. is he. MO is Prof. Jaime Cooksor (very ph) of Stanford University. MO is editor of "American Report," their magazine. It is edited in English with textual articles on Spanish speaking world. The Institute of ~~Spanish~~ Pan American Studies of Stanford, California, wants MO to meet Alberu and ask him a favor. They have a problem of getting newspapers and propaganda from Communist countries in the U.S. They have a problem with respect to Cuba - is that the newspapers "Hoy," "El Mundo," "Revolucion," "Cuba.." and the rest come in very late. It is almost impossible to write the truth on Cuba since they get all news very late. They have to publish their magazine (on time). The Director, Prof. Ronald Juken (very ph), was invited by Premier (?) Hospital for the celebrations on 26 July, this year, but when he arrived in Mexico, the flight to Cuba was so delayed that the Prof. could not arrive there on time, couldn't not go and couldn't leave Mexico. Alberu could see MO on Monday morning around 1000. Would like MO to bring his request in writing. MO has a letter in English which Prof. (Director) wrote MO - introducing MO to Cultural Attache. Can show him all the documents (to identify himself) and so they trust them. It is not that they don't trust ~~them~~ him, but what they want. MO has some copies of their magazine and also the publication of Herbert Batchelor (very ph), "Return to Cuba." Herbert B. is newspaperman of "New York Time" and New York Time said that they did not want to publish his study on Cuba - very recently. So, they published this report (in their magazine). Can bring a lot of documents of interest for them (Cubans) and MO thinks they can have a chat which would be important and interesting for both. MO is James Kockrof (very ph). (Starts to spell it, but only spells the first four letters).

5.9 In. Caruso with Alberu, who answers. Caruso talked to a Srita. at other number and she said that Caruso had to talk to Alberu. That Alberu was the only to resolve. Yes, but Alberu does not decide anything. They decide things in Cuba. (About his going to live or visit Cuba... probably to live.) Caruso says things are very grave now since he has no more money (to continue waiting here). This does not ~~ax~~ depend on Alberu. Couldn't they send a telegram? Alberu sent them a reminder. Still no answer. Sra. Machado took a paper (on this matter with her when she went). Yes, but this is now over 50 days (not 6 or 7 months). Caruso asks if he could talk to Counsellor - to see they could send a cable. Ask for an appt. early tomorrow morning. Caruso will go by there tomorrow at 0900 or 0930. Fine.

Max had to come by and talk to Mercedes, but she has to go to airport to wait for "Bols de nieve" (snowball - a person, an airplane) so Max made an appt. (to see her) tomorrow. Max is going to take down the engraving exposition because they are going to put up another exposition. He would like Felipe to call some of the people on the list of intellectuals. That is the Institute list and Max' list have already been advised. (that is, have already called these people.) Rojas should select some people from his list (to invite). The list that Rojas has been using at Embassy is the list of doctors. The list of the Institute contained a lot of intellectuals, very well known group. Max has very few on his Institute list. They should check over their lists. Felipe can call the doctors. Then, one day they can check over the lists - after Felipe finishes his (University) exams. Max has about 14 intellectuals on his list (which is not such). Max has another 10 on his private list - making a total of 25. This means they lack a lot (of intellectual group). Alberu takes the phone. MO is the newspaperman - Povis (77ph) who came in on Saturday. According to the program of "these friends," there will apparently be a long interruption. MO should be in New York this week, but Alberu has made MO think that the Consulate and the U.S. will not give MO the visa. That would mean that MO can't go there (to U.S.) so "I will have to follow the program of the scholarship in Geneva which is the following stop-over on the trip." In any case, MO will have an interview with the Director of the Information Office of United Nations here in Mexico at 1200. Will talk to him about the difficulties about the trip (to U.S.) since they have not explained things clearly to MO. MO called Alberu because Alberu told MO, when he arrived, to let him know if he was leaving. He has not left yet. MO is staying at Hotel Moutel. MO is Jose Bovis (not ~~xxxxxxx~~ Povis). MO will come by the Embassy this afternoon to talk to someone - to let them know what is going on in Habana Best he come tomorrow morning (and not this afternoon). Is that possible? They sent this invitation 2 months ago, then a second letter and finally a letter from the Embassy and they have had no reply from them, which surprises them since they have always been very interested in problems of Cuban revolution. When did he send the letter to the Embassy? MO would have to check on this. He sent a copy of the letter they had sent to Habana. One moment.

What is MO's name? Luciano Galicia, Secretario Exterior. They are celebrating 50th year of Union. This is actually 14 Sept, but celebrations begin 1st of Dec and they have asked the delegation to be

23.5 contd.

Sr. Domenech takes phone. MO puts on Ing. Lazcano. Greetings. Asks if D. has had any news from Habana yet. No, but D. called long distance with Cabrera (ph), who is still in Canada. He (Cab) said that he had thought the trip would be shorter, but he is there reorganizing the office there (in Canada), planning for the personnel to go there, and increasing the personnel. He will have about 35 persons working there because business with Canada has grown extraordinarily, like here in Mexico. Cab. had told D. that a person, substituting Garcia Lara, would come during this period. Garcia Lara, the ex-Commercial Attache, but this person has not arrived. Cab. said that "he would come as soon as possible, but this would not be before 15th of Dec." (His replacement. But D. has had no news? Just what D. told Lazcano already. That was the last on this.

There is another matter, not on fertilizers (above), but on cotton. Sr. Cano came by to see Lazcano and said he had gotten into touch with D. That is right.

MO is interested in garlic sales. The farmers of Bajio sold Cuba garlic last year. D. knows about this. This same group - Cuba complained about the quality of the garlic and they gave them a check for a different amount (that is, discounted for quality), adjusted the price - wants to re-operate with Cubans again if they are interested. These are very serious persons and would like to recommend them. The garlic matter will be taken up around middle of Jan. There are plans to buy, but this won't be taken up until Jan. MO will tell the men to provide a price quotation. That would be all right. Asks if D. would like to know how much garlic they would buy. D. does not have data. He does not think it would be a large quantity at one time. Thinks it would be only around 200 tons. D. says that they have a very good agricultural year in Cuba and have had satisfactory results (production of) cotton, rice, and garlic and onions, also potatoes. Agriculture has increased its production. That is very good! They will, for that reason, change their plans (for purchase). They will increase what they needed and reduce what was produced in larger quantity. Fortunately for Cuba, they will buy cotton, but not in the quantities as first thought. MO will tell this group of people (Bajio) to prepare their price quotation and will take them by to see D. one day. Fine.

MO would like some concrete info (title, author, etc) on this so he could have Aparicio sent it to MO from Cuba. Rojas will look around the Embassy to see if there is anything on this. Aab. said he would check among the things they are receiving from Cuba, there might be one about this. The author is an American and it was translated in Cuba. Some people here, who want to propose some reforms on Social Security of Mexico, have asked for this book. MO's friend (who is writing proposed reforms) has a copy of the book in English, but he doesn't know English so the book is very difficult for him. Then, MO could get the correct name and author. Yes, but MO has not been able to locate him.

4.0 In. Sergio Mondragon asks Rojas (v), who answers, for Alberu. Alberu takes the phone. SM did not know that Aparicio had left Mexico. Yes. SM was left without his connection since through SM a lot of people communicate with Cuba - writers, poets, etc. of Latin America because from these countries they can't send mail (directly). Aparicio acted as liaison. SM gave him letters and packages for Casa de las Americas. Even sent their magazine, "El Cornu esplumado." Since Aparicio is no longer there, SM does not know what to do. He needs to keep sending things to Cuba "because we are very interested in being in communication" with Cuba. Make a request in writing - for this. To send packages via the Embassy. Yes, because Alberu has to consult this. SM could send them a copy of his magazine, but he now has an urgent matter - from an Argentine poet, who can't send anything from his country to Cuba. He sent his book for the competition for the Casa de las Americas. Bring the book by, Alberu can send this. Bring it by and if Alberu is not in, leave it with Rojas. Will it arrive in time for competition? If he brings it right away. About the magazine, he should make his request in writing. Alberu will consult this. Send it to the Embassy, or Cultural Dept. or to Luis Alberu. SM would like to know how to send the book to Casa de las Americas. SM received all five copies together, but SM understands that they are to be sent in ~~five~~ different envelopes with a pseudonym. Alberu will put on Rojas who knows about this.

Rojas takes the phone. SM explains about the book...Bring the book by and Rojas will prepare the books for sending. Bring it by and leave it with Jorin. Or bring it by on Monday and leave it with Alberu. SM would prefer to deliver it in person so will take it on Monday. But won't that be too late for contest? No, the period is until 31st of Dec. Rojas can't be in the office on Monday. Come by Tuesday morning - around 1000. Fine. MO will come by between 1000 and 1100.

Rojas thinks she has these; she set aside the copies, and Rojas still does not have his copies (back). She has closed the index. Yes, but they are doing 730 now. Just has to take it by there. She is making up index to close the pouch. May go out on next flight.

Alberu takes the phone. Greetings...Alberu says he has 730, dated yesterday, but this is 3 reports (combined). Yes, she only wanted to know if the number was taken. He says that he won't finish report #4, it will take all morning. It can go out in next pouch.

7.0 Out to 24-61-79. Max Rojas with MO, who answers, for Jorge. Jorge takes the phone. Rojas has invited the Embassy people, but would like to check time (of affair). At 1700. Jorge understands that Lechuga is still here (in Mexico). That he will leave on Monday "with these people," and Jorge thinks they should invite him also. Bola de Nieve told Jorge that he (Bola de Nieve) wanted to send with Lechuga a copy of "the tape there to Cuba, although I pointed out that it was not a good recording of piano, etc," but Bola de Nieve did not mind since it showed the spirit, of the concert. MO ordered a copy made and it will be ready this morning. Lechuga is leaving on Monday. It would be good if Lechuga comes too - since he is Minister of Culture. R. will try to locate him and if he can't see him, will leave a message. Alberu knows about this (party) too. Alberu wants to know where he can get a photo of the affair - if there were any taken. MO saw Rodrigo Moya taking photos there. Moya works for "Prensa Latina." Have to get in touch with him and ask him for photos. Or through Armando Rodriguez. Rojas thinks they should invite Ramos Bracho, but Rojas does not know where to call him. Jorge has his phone. Then, he should phone him (to invite him). Fine. Will phone him and Margarita Mendoza Lopez. Rojas does not think they should invite many more people since this is almost exclusively of the Directive Board of the (Cuban) Institute. Three or four persons will go from the Politecnico. These, plus 10 or 12 from Institute, plus around 3 from the Embassy. And Bola might want to invite someone too. Since party is in honor of Bola de Nieve. This will make up around 20 or 25 persons. Has MO talked to Kochiti? No, tried to locate her yesterday, but her phone was busy. MO located Dr. and he gave up trying to call Kochiti. However, it would be good to call Armando or Kochiti. Rojas will try to call them, to remind them, and see if they can locate some others of the Institute. MO will call Ramos Paz (?not Bracho?) and Margarita Mendoza Lopez - who was also at concert and was at the meeting later. All the Directive Board (of the Institute) should go. Rojas is not sure if he should phone ... Iturrbiatu (ph). Yes, but Directive Board is over 25 20...Yes, but some won't go. The most of persons attending should be of the Institute... Also should invite Lechuga and any person coming with Lechuga. Fine.

Sr. Domenech takes the phone. MO has talked to him about this matter. Asks if they have heard about this money order. D. says they have sent this money order, but they sent it in the name of two persons who used to be there in the Commercial Office and have not been here for a long time - that is, Jose Antonio Garcia Lara, the old Commercial Attache, and Oscar Concepcion Mendoza. Mendoza left here at the end of Sept. Garcia Lara left in July. They had sent other things previously - about similar matters - were sent in the names of these two men. But now they can't cash this money order. Sr. Federico Alvarez is handling this now. He cabled Habana, pointing out the error, asking them to change the names, so they can cash this. Please call back next week to see if they have any news. The money order arrived - and the bank did not let them know about the arrival of this money order. They had to check all the banks - through which normally they receive the money orders, and they finally located in which bank it had come. Found this last Thursday...MO asks if they should send a telegram about this

Yes. ~~XXXXXXXXXX~~ It would be best if MO came in person with this request. They are not open on Saturdays. MO works. Perhaps he could off for a while. It would be difficult. MO needs his documents - has been requesting a scholarship for the USSR. Rojas thinks it would take a long time to get these back. Best get a double set of his documents. Dr. Ramirez de Arellano on page 3 - not known by Aparicio, Mts. or Rojas. Skip him since there is doubt about. There is one Dr. Salvador Ortiz Perez, who doesn't have a phone. Might try to get his phone to find out who he is. Mts. and Aparicio don't know him either. Dr. Felix Cordova - has no phone. Look in directory or another directory of the Embassy. Also there is one, inscribed 26 July, Dr. Gabriel Escobar - who is new. Dr. Gabriel Escobar Caus. Lives at Eugenia 811. Phone 45-15-01. Also a Yucatan doctor, Dr. Balan (ph). But due to certain circumstances, they only noted down the names. Rojas has his address. Include him on this page. Fine. Does Mts. have Dr. Luis Martin on page 2? He does not have his address. Rojas has his phone - 24-14-49. Has no address noted.

Do they have a mimeograph machine at Embassy? Yes. They are making up the Order of the Day and would like to distribute this to persons attending so they can think about this before session begins. Could make up about 40 pages. Could they print this up tomorrow. Yes, and if it is short, can type it up. Mts. will call him or come by - if it is ready. After Aparicio and Zales approve (Order of Day).

What is the motive of the meeting? Should not say that this is to make up the Directive Board since some people don't want to come. Just say to form their medical group. Formalize their organization and will chat the representative of Public Health (from Cuba).

MTR takes phone. Rojas puts on Alberú with her. Aparicio is getting better. Alberú has received two cables. The first one states:
PIANIST PRESENTATION CONCIERTO THEATER SEPT 19 REPEAT KEMAKKRETT CONCERT TELEVISION MONDAY 21.
MTR complains they waited a long time to let her know. They need for her to send her repertoire to coordinate with the national symphonic orchestra. Another cable asking for her repertoire urgently of the homage of R. vueltas. MTR has not

11.0 contd.

much of R. Vuelitas since did nowrite much for piano and orchestra, but they already know this. MTR had planned to play the 5th of Beethoven. The matter of Director has been complicated (since Mexican Director is not going).

Could the concert of 19th be a complete recital of MTR? Alberú thinks so. Yes, probably with orchestra. She would like to know if this is recital or only one piece with the orchestra. Thinks she might play alone and then with orchestra.

If she could give him her repertoire, he could send a cable right away. Perhaps she could leave next Friday (for Habana). No, that is too soon. Could go next Monday, 14th (Sept).

How They have to send a repertoire that can be prepared in a week. She would have to have an immediate answer - confirming what she will play. She can prepare one concert. Say the 5 concerti's of Beethoven, preferring the 5th. Schumann's Concerto in E Minor for orchestra. Rachmaninoff, Concerto #2. Tchaikovsky: Concerto in G Flat. Can select from these. Perhaps she could play something more modern... No, couldn't prepare it in time. She could have a complete Chopin recital, but would need to have an answer right away. Or could have recital with works of Bach, Beethoven, Schumann and Prokofiev and something by Mexican author.

She had hoped this trip was to be in Dec. Her husband has invitation to give some lecture in Dec. She can return, Alberú says. Can arrange to return.

MTR has to renew her passport and then send it for Cuban visa, which will be quick. MIS says her passport doesn't state the Antilles. Should she have this put in? Ask at Mexican Foreign Affairs Dept.

Insist that they reply immediately about what she should play...

- 26.2 In. WO with Rojas (v), who answers, for Sr. Alberu. Not in now. WO
is Maria Teresa Rodriguez. Alberu has not phoned her and this must mean that he
has not had a reply about her program (in Cuba). Alberu should be back later.
Has she phoned Dra. Machado? She phoned around 1000, but she does not like to
bother her. She needs to know the program as soon as possible. Aparicio mentioned
to Rojas that MTR had already sent a program. Yes, she had proposed one, but now
they asked for something by Revueltas and Rev. did not write anything for piano and
orchestra. Then, they ask for her repertoire. But there is very little time now to
decide this. Complains they waited late to advise her about the trip too...
They leave the office at 1400, but they could get news at the gate later on.
The phone there is 14-13-26. Yes, but they won't open a telegram. No. They would
have to wait until tomorrow. MTR will call Dra. Machado around 1730 to see if she
is in and has a reply. If not, will phone tomorrow at 0930. MTR has to go out today
at 1445 and should be back around 1730. It is now 1320. If Alberu comes in and has
some news, they will phone MTR.
Asks if they phoned MTR's husband about a meeting of doctors tonight at
the Institute. He thinks so and Aparicio mentioned it, but she will remind her
husband at noontime.

23.5 In. WO with Rojas (v), who answers, for Alberdi. Not in. WG is Lola, the friend of Guerra and Mena. She needs to talk to Alberdi urgently - to see if he can solve a problem she has. If he comes back, he will probably be in before 1400. Where does he live? Rojas does not know. Comes in in the mornings around 0900 or 0930. WO will call back before 1400.

23.7 In. Lola (v) (above) asks Rojas (v), who answers, for Alberdi. Not back. May not come back today. Doesn't WO have a phone? Yes. If he comes in soon, tell him to phone her at 14-30-24. She needs to talk to him urgently.

Lola says a friend of Lola's, a young man, sent her some money to send to Cuba for a ticket (deposit a ticket). Lola says she helped the young man here a lot (Cubans). She wanted to find out how to send this money to Cuba.

29.7 In, 6 times. No answer.

31.2 Out to 24-10-57. Alberdi with Maria Teresa Rodriguez, who answers. A. has received a cable from Habana. They selected: Beethoven 5th, Rachminoff 2. But prefer concert of Mexican authors. Prefer Ponce, Chavez, ...Galindo or another. Bring (with her) Monday, with score and material. Enriquez promised MTR a work, but won't be finished until December. There is another one by Galindo, finished a month ago, but there is not enough time. They are sending the ticket to Cubana (to advise) Embassy.

About the recital, they make no mention, but MTR can arrange that there directly. They are concerned about what will be performed with orchestra.

MTR asked Dra. Melado about her son, but they have to get an answer on this from Habana. They have sent a cable on this.

MTR will go see about her passport tomorrow and get the passport of her son ready too - in case it is approved to take him. Might have an answer about this tomorrow. Will let her know about the son as soon as possible.

MTR says the concert of Ponce is not interesting. She can have some works by Mexican authors ready for another date.

Rojas returns to phone. Urbieta is not in. Ask if he will come in later. Yes, he will be in later. Do they want to leave a message? Will talk to Rojas.

MO with Rojas. MO tried to call there several times yesterday from Acapulco. R. does not know MO. Guillermo Ruiz and Antonio Garcia were in Acapulco on vacation in May. Guillermo's wife, Nilda, left for Habana and took two chemistry books for MO to a student in Habana. Would like to locate them because student has not received these books and the boy needs them badly to finish his studies. Both Ruiz and Garcia are in Habana. Teresa Proenza is also there in Habana. Mirabal has also gone to Habana. MO phoned Mirabal yesterday. M. visited MO at his house (in Acapulco). Will Guillermo come back? No. This is the problem. They were in Acapulco for 5 or 6 days - at MO's house - recommended by Justo. She said she had vacations (and was going to Cuba). MO asked them to take some books. MO had these there with him and "she" (wife) took note of the address of the mother of the student. This is the Sra. (mother) who is the head of all the organization of theater in Habana. Perez Gerraajo or something like that. On Calle 23. They took books in May and Sra. has now written asking where these books are. MO asked Sra. Ruiz, in case she could not deliver the books to Sra. Carrasco (not Perez Gerraajo), to call her (Sra. C.) by phone or leave them with Manolito Perez, Secretary of Roa, because "Manolito also knows me very well. He also spent quite some time here at my house." MO had wanted to know where Guillermo is to write him about the books. R. will ask there at Embassy to see if they know his Habana address. Will he live there (in Cuba) definitively there? R. thinks so. Then, MO says, he can write Mirax. That would be the best. Yes, but to whom? To Guillermo Ruiz. MO yesterday wrote Mirabal, to Mirrex, asking him to talk to Manolito Perez about these books. When will Teresa be back? Probably won't be back. She got an official job there (in Cuba) and probably won't be back. And MO comments, he went there (Cuba) to stay and then returned (after all).

MO sends his greetings to Amb. Hernandez Armas. Tell him that the man from Acapulco called "because there is a situation which was presented (to Amb) there by Mirabal (ph)." Fine.

Might ask Justo to call MO. Justo Urbieta. Tell him that Beben (ph) and ask him to phone Acapulco. MO will write Perez at Mirrex (has not written before?). Fine.

Page 2 of 2

8.2 In. Alicia Pardo puts on Lic. Garcia Terrés with Rojas, who answers.

Lic. GT takes the phone. Aparicio has been sick since last week, but they had not given him the originals of the manuscript - until today. Ap. said GT should give him an appt. so Rojas could deliver the material directly - so they could sign a receipt for him. Today is Tuesday. Then, on next Thursday. GT has in a hurry (to get this printed), as he explained to Carpentier, because they don't know what will happen next year (attitude of govt) and if they don't leave everything ready, MO can't be responsible (that it will get published) and MO is very interested in seeing it published. Then, Thursday at 1200, 10th floor of the Rectory Bldg. Rojas will take receipt and book.

9.7 In. WO, calling for Dr. de la Borbolla, with Rojas (v), who answers, for Alberú. Has gone out and probably won't be back soon. It is urgent for Dr. de la B. to talk to Alberú.

Have they received any news from Cuba about her tour (there)? Only that telegram which they had showed her. R. has not seen anything else. The telegram mentioned that it would be after the 5th - that they would send the tickets. R. would have to ask Cubana (de Aviacion) about this. R. can ask if she will phone back in a little bit. WO will phone back in 15 minutes. WO says she could phone Cubana. Phone 35-79-00 and 35-79-09. Talk to Sr. Almada.

Alberú checks and says that it must be the secretary of Ruben de la Borbolla.

Has Al. talked to the Amb? Yes, talked this morning about those pictures. They are ready to be taken. They should make up an inventory and both sign it, so there are no mistakes, because the painter has left. They will take it to the Instituto (Cubano) and have the person there to make up a receipt. WO will leave the paintings there to be picked up since WO is going out. Alberú will see how he can pick these up.

12.2 Out to 21-66-79. Alberú with MO, who answers, for Ruben de la Borbolla. Not there. He called that he needed to talk to Al. urgently. He and his secretary are both out right now. Al. leaves his phone for them to call when they return.

What is his full name? Ap. says the card is there with his name. She hangs up. Rojas says not to hang up and leaves phone off hook....

19.2 In. WO asks Rojas (v), who answers, for Cultural Attache. Not in now. Who is Cultural Attache? Luis Alberú. His secretary is talking. WO is leaving Mexico and wants to leave a message. WO came in yesterday from Cuba, was invited there. While there he visited the Ministry of Sugar. Talked to people there (in Ministry) and WO wanted to initiate an exchange of technical magazines, even technicians. Here the Union Nacional de Productores de Azucar edit a magazine, monthly one, which they receive (in Cuba) with great delay and irregularly. Srita. there at Balderas 36, where the publication is made, told WO that they are sending these to Ministry to Treasury, but since there have been certain changes there (in Cuba) and the Ministry of Sugar has just been formed, it would be good if the publications being sent - could be sent via Embassy so they receive these in time. If they send these to them, they will send them (on to Cuba). WO says he will write the people there (in Cuba) so they can get in touch with the UNPASA (Union de Azucar) asking them to send these publications via the Embassy. ~~Exit~~ How many copies do they plan to send? MO got a card from Ing. Raul Esparza of Ministry of Sugar - He is the head of Production Dept. MO does not recall the name of the Captain there (who is heading it). MO will write here Ing. Ol...Taraa Tavares and Ing. Enrique Ianza, who is Director of the Escuela Agropecuaria. R. asks if this is Capt. Nufez Jimenez. Yes, MO thinks so.

Rojas asks for MO's name. MO is Rodolfo Ramirez Suarez. His address - Apartado Postal #7, Villa Jose Cardel, Veracruz.

MO says there must be an agronomist association here which has publications. MO does not have time to find out if there is such an association (so they can send publications to Cuba too). Perhaps this office can check on this. Rojas thinks they publish - "Tierra." MO is not sure about this, but there must be some magazine.

article which came out in the last issue of "Siempre" on Cuban painting (?). Has not been able to read "Siempre." By whom? Antonio Rodriguez? No, it is against him (Antonio Rodriguez). It is very evil. Isabel Cintas signs this. Would this be the wife of Amb. Cintas? Yes... the same. She is well informed, with half-truths, which are the worse. States a lot of things which are true, but half-way. A very perverse article. RA was busy on Sunday with some writings, and did not read the magazine. RA comments that Antonio Rodriguez is in close contact with RA. RA will give MO's phone to AR so he can give MO information which RA does not have. MO read AR's work; would MO like to write something on this. RA could get it published in "Siempre." RA has good relations there and could get it published. That would be all right. In any case MO would like Rodriguez to see this article so that he (would like to answer it). Aparicio would like MO to publish something too. MO does not sound enthusiastic. MO will see what he can do. Rodriguez was only (in Cuba) for 15 days. Yes, MO read the article. He made reference, very slightly, to this. MO's phone is 23-01-71. Aparicio will give MO's phone to Rodriguez.

MO wrote a letter to Graciela mentioning "that" (the article?). Asks when she was here? (Very indistinct...) On Thursday (at the Embassy). And the airplane came in on Friday and the letter was sent (out from the Embassy). It left Friday or Saturday (the letter). MO thanks Ap. for sending this because he is sure that she (?) will be interested in this material (and) these books (probably Graciela). MO has written her and will mail the letter. Mentioned article which without mentioning her name (Graciela's name), she is alluded to in it (the article). If MO has not closed the letter, tell Graciela that if she wants to publish something here in Mexico, send it in the diplomatic pouch to Aparicio in an envelope and Ap. will have it published. MO has closed this letter but will write again in 2 or 3 days - before MO leaves (for somewhere).

2.0 Out to OJ. Time is 0313.

2.2 Out to 39-02-74. Raul Aparicio (RA) asks WG, who answers, for Antonio Rodriguez.

AR takes the phone. RA asks if he has seen a letter published in "Siempre" and signed by Isabel Cinta on Cuban painting and which tries to undermine AR's comments. AR has answered this. In case AR does not have sufficient information there is a Cuban painter here in Mexico - who lives here due to illness - Marcelo Pogoloti (ph). He is blind (??). He asked AR to phone him. Is he a relative of the person who wrote...? Yes, he is her father. Father of Graciela. AR has read several essays of hers. Pogoloti is one of their best painters. He is blind and lives here in Mexico. He married a Mexican (woman). Would like to give RA some information. RA has already sent his reply. Used cases that AR knew about - cases of Moral, of Amelia and why he fell. AR says he provoked the death ~~xxx~~ of several persons. Perhaps Pogoloti could send a letter to "Siempre," it would be very good. RA suggested this and would like Rodriguez to call him directly.

Rodriguez saw the questionnaire through Godoy. Rodriguez has an answer, but did not see Godoy yesterday to send it back to Ap. Godoy is out of town. Will be back this afternoon. Rodriguez did not see him yesterday at the Politecnico (IPN). ~~xxxx~~ Rodriguez did not ~~xxx~~ go to see Aparicio because after Rodriguez talked to Aparicio by phone, Aparicio went by there and Rodriguez gave him copies of the questions. Rodriguez wrote some things about what he knows. There is a problem in between which is something about a debt in Cuba with the Mexican products and this has caused some difficulties. Rodriguez states what he knows about this. Rodriguez knows that there is a Mexican producer who was willing to come to ~~xxxxxxx~~ an agreement with the Cuban Instituto that the debt could be paid in an original form - consisting in his going there (to Cuba) to ~~fix~~ make a film. It would be the advantage of the Cubans. He talked to someone at the Embassy about this - a short time ago. Rodriguez talked to Guevara at the Instituto and he was worried about paying this debt in order to resolve several related problems. Ap. asks Rodriguez to mention names since Ap. wants to talk to these persons. That would be interesting way of paying a debt. Make note of his name and phone there (on questionnaire) for Aparicio. Ap. will send for the questionnaire - to Rodriguez' home. Will send for it today. Fine.

The phone of Pogoloti (ph) is 23-01-71. Marcelo Pogoloti. Ap. will talk to Rodriguez in about a week about the problem of the exposition. Fine.

Is Sra. Cinta an invented name? Rodriguez thinks so because it can be clearly seen that "these are things for this congress for culture." It would be very strange that a woman comes through here (for short time only) and would ~~xxx~~ know there are several painters here (in Mexico), among whom is Felipe...and so forth. This is a person in contact with the Cuban painters here (who wrote the article). Rodriguez asks what Felipe's relations are with Cuba? Ap. says he is somewhat neutral. Ap. has been a friend of his for many years, but he is somewhat distanced from Apt. when Ap. came here. They have been friends for 30 years and Ap. and Felipe published a book together - "Diez pintores del mundo," in 1944. When

they had a campaign here against Gomez Tigre, he (Felipe) came out in his defense. Ap. says he is a good friend of Gomez Tigre. MO says GT has been the greatest enemy of revolutionary painting. Ap. used to be a good friend of Gomez Tigre too, but in 1960 when Ap. was in Rio de Janeiro, Pepe (Gomez Tigre) came through there (RIO) and he did not even go to see Aparicio. And they had been University friends in 1939, 1940, 1941, 1942...Felipe is closer to these people than to Aparicio.

Ap. takes the phone. The answer has arrived. They say that JJC will receive when he (JJC) is there for fees, apart from paying for his house. They will give JJC and his wife a house to live in. The fees will be in the amount of \$500 pesos - Cuban pesos (equal to dollars) and he can send 10% back to Mexico. This is an offer now from the Casa de America, Ministry of Foreign Affairs, and this can be modified since they do not know the needs of Currola. Ap. is to talk to Currola to find out his opinion. Currola accepts.

Has Aparicio sent Currola his letter yet? No, not yet. He is waiting for G. to read all the things Ap. gave (him). JJC will finish reading them today and will advise Aparicio definitely. Ap. sent a telegram (to Cuba) that day he and JJC talked - on Monday, but Ap. does not know what message JJC sent with Soledad because Ap. mentioned in the telegram that Soledad had information from JJC. Said the same thing - that JJC planned to read more works (theatrical) and would see if they could do ...Blanco, but Soledad was going to the Director of the group. JJC will phone Aparicio tomorrow. About theatrical work by Carlos Felipe. Felipe has been employee of ship customs nearly all his life. An interesting person...will call Ap. tomorrow around 1000.

19.2 cont'd.

It would be a good idea to publish something each month in the bibliographic section on a book which was not Mexican, but some other part of America. Could publish something on El Ecuador and/or Venezuela, etc. MO is waiting for news from him. From Salvador Bueno? No, Federico Alvarez. Alvarez has not mentioned this to Aparicio in spite he comes often to the Embassy. MO just took it up with him. And could Bueno get ~~xxxxxx~~ some benefit from this? MO presented it in this way - so that it would be a paid collaboration. They could use something of Bueno and other critics from all over America. This is now a question of budget. Should this be taken up with ~~agez~~? MO is not sure. Perhaps Aparicio could talk to Alvarez too.

Ap. called to say that he is not going to go by there and he needs the books. MO will send these to him. Please send these with discount. He wants the books of Jazz of Behring (ph), 2nd volume of Anderson ~~xxxxxxx~~ Lindberg, "La cultura y la pobreza" of Harrington, and another pamphlet which MO mentioned to another person working in the Embassy. Don't they have "El tiempo y el viento"? No. Asks what the amount is so Aparicio can leave the money there. It will cost \$48.00 pesos without discount. Would come out \$38.40. Could not send them today, but tomorrow. Come around 1400. If they can, they will send it today. Will leave money at the gate.

21.2 In. MO asks MI, who answers, for Alberú. MO is Cachita. MO asks who is talking, but MI had left phone.

Alberú takes the phone. Greetings. Alberú has been sick. Jorge is also sick. Matt (?ph) broke his glasses and had to have them fixed, but did not have the money to send to get these. Thought perhaps they could go for these and get the glasses since he could not go to the Instituto today at all. Couldn't he come by here tomorrow morning to talk to Dra. Machado? He can't come out alone. Doesn't see anything. They will cost \$270.00 pesos (for glasses). Alberú will talk to Machado. Yes, and he also has pending there some small debts. MO always gives to the Instituto and things, but this time she does not have that much money. Dra. Machado will be the one to decide on this. Will then phone them - phone 35-54-12. MO has to go to a dinner, given by Tere, now. Perhaps they could pay him one month (salary) because MO thinks they have paid him until 15th of Jan or 15th of Feb. They would like a little more money than just cost of fixing glasses, since they need some money and will be an incentive for the boy. Say hello to Max (not Matt). Fine.

23.0 In. MO asks MI, who answers, for Sr. Garcia Lara. Not in his office. MO left a message this morning for him to call Lic. Navarro. His phone is 25-09-14, but will check to see if he is in his office. They are cut off during wait or MO hangs up. MI comes to phone.

24.0 In. MO asks MI, who answers, when Embassy is open. From 1000 to 1400.

Aparicio takes the phone. Raquel Thibault (ph) gave Ap. WO's phone. Yes, Nancy Cardenas ran into her (Raquel) day before yesterday in editing office of "Politica." Would like to ask her some questions about motion picture films. Where could they get together? RT has to finish her article today and is very busy. Could be tomorrow morning. RT offers to come by the Embassy. Fine. Could come at 1030. Ap. would prefer earlier. Then, at 1000. Fine. Will talk then.

2.2 Out to 14-13-26. MI asks Gorria (ph), who answers, if Samuel is around there. MO answers Cuban Embassy (so this is another section). He is cleaning the Consulate. Thanks.

3.0 Out to 24-61-79. Aparicio asks WO, who answers, for Jorge. WO takes the phone. Asks for Jorge Godoy. JG takes the phone. JG has been in Jalapa. Went to inaugurate the mural of Anabelto (ph) Martinez (in Jalapa). It was an interesting trip. Returned last night.

RA is calling about the motion picture questionnaire. JG has this answered by the Secretary General of the Union - Flores. Another boy also answered this. This boy directs the Cine Club for JG at the Politecnico (IPN). JG can come by and take these to RA before he goes to the office this morning. JG also talked to Julio Tellez, the same boy mentioned above, directing Cine Club, to make the 26 July cycle and Tellez said that would be fine. JG really does not consult him, but tells him what should be done. However, he is very willing in any case. JG had wanted to bring him (Tellez) by to see RA today or tomorrow. RA has to go out today at 1200 and has something else to do. Then, will bring the boy tomorrow. To make selection (of films), decide on days, etc. Before he brings Tellez by, Ap. wants to talk to JG. Don't bring him tomorrow. Something has come up that RA wants to talk over with JG. Fine. Will try to come by tomorrow around 1000.

4.7 Out to 13-90-00, six times. Busy, incomplete dialing, complete. MI asks WO, who answers, for ext. 309.

WO answers. MI is Sr. Alvarez. He called them on another phone. One moment.

Sr. Isunza takes the phone. MI says the other phone of his, in the commercial office, is out of order. Came here to cultural office. MI received a telegram this morning (or MO sent a telegram this morning) in which "I" (MI) advising of the cable transfer to pay "you" (plural) the 5,000 stallins, but the telegram states... MI cabled the prices from the last catalogue and the cable that MI received in reply - They received the price of example. According to catalogue \$3.40 dollars per unit. Considerable difference against..ind. Asks where they got the price for \$3.40. One moment. Isunza will check on this. (MO is Sr. Souza, not Isunza.)

4.7 contd.

Isunza returns to phone. Does not know how the error occurred. He has the catalogue there in dollars - which he gave MI and then (Cubans) and it states \$9.25 dollars. Yes, that is what MI cabled them. MI will send another cable about this price. Ask them where they got this price. The money will come soon (for these parts) - as soon as matter of price is clarified. Should have it in 3 or 4 days. In case they lack some of money (due to confusion in prices), MI will give him this money and they can wait for a second amount. Don't they have the first amount? The \$515. How much was that? Making up the difference in price, discounting the Credit Note 5175, they owe \$2,356.32 dollars. MI will check on the bills. They shipped this on 16th (of June). MI says they did not really expect this to be shipped so soon. MI has an account here and thought it might be enough to pay for this, but it isn't. The shipment was 515 pieces. MO will phone MI back. MI's phone is out of order, so he will phone him back. Fine.

8.0 Out to 47-51-39, MI asks MO, who answers "Ramadín (ph), S.A., E" for Sr. García. Not there. Asks for Head of Sales, Sr. Lopez. Not in. Asks for Technician Arias. MI is Urbieto (ph).

Not there either. When will they be in? MO is not sure. U. will phone back later.

9.0 In. MO asks MI, who answers, for Brita. (Teresa) Proenza. Not there now. When will she be there? Has no set time for coming here. Where else could he phone her? 14-13-26.

9.2 In. Sr. Ayala asks MI, who answers, for Aparicio.

Aparicio takes the phone. The material has not arrived yet for Ayala's anthology. Have they had an answer yet? No, they will have to wait. Ap. is now writing Fernandez Retaman (ph) to see what he answers. Ap. wrote him about a week or two ago. Ayala asks if Ap's book of tales is there at the Embassy (for Ayala could come by for it). Ap. has it at home. Call back in a week. In case he does not have an answer, bring his book anyway to the Embassy. Come around 0900 or 0930 next Wednesday. Fine.

9.7 In, 3 times. No answer, complete. MO with Aparicio, who answers. MO asks if he knows if there is anything there for...Ind. Ap. does not know. Has not left his office. MO talked to Juana and she can't come by. wanted to invite some people to lunch today (since she already has the seat. Don't they have invitation of Dr. Gonzalez Martinez Alvarez. WO is calling from the Universidad Obrera to see if they could lend them some films or a film. They should bring an official written request. Yes, they would like to do that, but meanwhile, she would like to have name to put it on program and then later take official request by. They have shown: "El 26 de Julio," "Esta tierra nuestra," and another one. Have they shown the "Visita de Fidel Castro de la URSS"? No, have not and would like to show that very much. One moment.

MI returns to the phone. They could lend it to them for 4 Julio. Makes note of name: "Viaje de Fidel a la URSS." It would last about 20 minutes. Don't they have something else to show. They don't have any 16mm. films - long films. All are shorts. The one of Fidel's visit to USSR is also 16mm. The ones they have have already been shown in Universidad Obrera. Ap. talked to him this morning early and he gave him P's phone. He said that he had already answered that letter - to come out in next issue. P. could have given him more information. Asks P. to write an article. Why doesn't he do this? For two reasons that he will explain later to A. Could write a general article, but P. is going to Ixtapan. Send it to Ap. by mail. Ap. thinks that the article which came out in "Siempre" was due to the "worms" here in Mexico. Ap. says his friend, Cundo (ph), is here doing nothing - just at home. P. had thought he had taken destiny's road. No, Ap. thinks he is still in Habana. He must not have left. Facundo belonged to the group of Ap's friends in University - the painter groups who studied with Ap. Pepe Gomez Chicle (ph) was also in the same course. Facundo was a communist until the revolution won. After the revolution won, he withdrew (as a communist). It is very strange. P. thinks he might have become scared. Ap. does not know. Has not been able to talk to him later. P. says it might be influence of his fixax friend, Pepu. Doesn't know. P.'s attention was drawn because "he mentioned (in article) him (Facundo) and Lozano." Ap. has had no news of Lozano. And also Rolando Gutierrez. RO was a similar case to Facundo. Neither knows about these people - MO was surprised that Facundo was out of Cuba. And the other data (in article) have a certain truth with regard to dates and events, but all given a false aspect. MO could show this in an article, without answering directly. P. could do this at any time, perhaps a little later on. "Siempre" would probably be interested in this. P. is leaving tomorrow in case Antonio calls. P. expects to be back from Ixtapan in 3 weeks.

C. went to Guadalajara to see his mother who is quite ill. They had wanted to invite Carballo to a party, but C. was out of town.

The thing at the Instituto was quite good. What C. did was very well done - on professions.

They will get together to chat. Ap. says they have to talk about the change (of Directors of Instituto). Ap. is waiting now on Castro and Villagran. Carballo will be a member of the Directive Board. Asks for C's new home phone. It is 25-72-61. C. is there before 1030 and from 1900 to 2100 in the afternoons. Ap. gave Pacheco the material which arrive. Yes, it is going to come out now. What happened about that? The anniversary issue came in xxx between. Also probably had difficulties publishing it in last issue - to give it good publication. C. made up two notes which will come out next Thursday. One on the ...Cubano from 1953 to 1963. Ap. has received copies of his book of tales. Give him one. C. asks how Severo Sardue (ph) is with govt. Fine. An excellent writer. One Aguerro talked well of several authors but did not include Arduy (ph) (no Sardue). Ap. is not sure about Arduy. Could come by on Monday at 0900. Fine. Ap. wants to consult C. about several things. C. has to turn in the novel on Monday and would like to know about Arday. Ap. would have to send a cable to Cuba for this and there is not enough time. Also, couldn't send a cable for that. Try to find out about it from someone else. C. will bring it by on Monday.

14.7 In. Sr. Serré with ~~aparcicio~~ who answers. Serré got a message to call him. Ap. says @ one moment.

Aparicio takes the phone. Ap. received a letter. Ap. says this was something last year. This is about Serré's wife, who was interested in going to Cuba. Would like to know if she is still interested? Yds, but some time has gone by. Ap. says that she (wife) in Prague ran into Hara Gramachis (ph), a friend of Aparicio. Yes, and Dr. Lechuga left after that and they did not know any more about this. Serré's may go (somewhere) in August, but would like to come by and talk to Aparicio next week. Come early one day - from 0900 to 1000 - next week. Set it for Monday.

Felipe has some interesting things, but it would take him 2 months to put on one of these plays. And, moreover, he really would not like to do this. Does Gurrola have the time problem? Yes, he has to go out of town for one month. About what G. would earn - \$500 pesos (cubanos) but could only take out 10%. That is very little. This 10% would not be sufficient to cover his (house) expenses in Mexico. He also would lose one month's salary (here in Mexico) That would be about 4,000 pesos. Money can't be taken out of Cuba. JJC asks what he would spend all the money on in Cuba. He can buy things. He can't take these out either. Yes, in a special case, of person who goes there, works and earns money, he can take these things out. Casa de las Americas would hand it for him. JJC would like to take out more than 10%. MO talked to Alberdi to say that "we are leaving today so he (Alberdi) could be at the airport to resolve any difficulty." Who are leaving? Angelita and MO are leaving for Cuba today. Ap. did not know this. They talked to Dra. Machado and they were told to talk to Alberdi so he could help them, on departure, as when they arrived. There will be another Cuban (Embassy employee) there. Who would that be? It could be Rogelio or, eh...can find them at Cubana Airlines counter. Ap. has to go to an appt. at University and has to leave now. Call Dra. Machado. Phone 25-07-95. She knows who will be at the plane. All right. Ap. says he (Ap) ~~xxxxxxx~~ knows that Marquez has been in touch with MO. Yes, MO has invitations from here to take to Cuba - on the matter of education (inviting people in educational field to something, or vice versa). Yes, Ap. sent a report and no one has answered it - neither Bell (ph) nor Gaspar has answered. The problem of "our guests to go there" (to Cuba)...MO will present the problem when he gets there. All right. They have a diplomatic passport. What is their fear? Just the departure. There is always someone there from the Embassy and will have them look for them.

19.5 In, 4 times. No answer and complete. MO asks Rojas (v), who answers, for Federico Alvarez. Will see if he is in his office. MO is calling from Sr. Inzunza (Izunza) of the Cia. editorial...ind... Moment.

Alvarez takes the phone. She puts on Cusa (??, Izunza). What news does A. have. None at all. Thinks they will have to call Banco del Comercio or the Banco del Atlantico to see if there is anything (money) for them. Sr. Sanz (ph) wants to talk to Alvarez. He is even willing to pay a long distance call to Cuba to see what has happened on this. Moment.

MO takes the phone. Before calling Cuba, it would be good to check with Banco de Comercio or Banco del Atlantico to see if this dollar transference has arrived. There are two matters in this. About the 9,000 dollars, they can call Banco de Comercio Exterior and Banco del Atlantico. What they could find out by call is if they have sent the money for the order they have there (which has not been shipped). Yes, for the "Stalin's" (books on Stalin?). On the "Soil." Yes. This has been certainly. MO offers to pay for call. All right, MI will pay for this and find out on what date they have sent this, on what bank and via what. Also MI can take up the matter of the 35,000 dollars they ~~xxxxxxxxxxxxxxxxxxxx~~ have to authorize because the insurance was in pesos ~~or~~ instead of dollars. Ask if they have authorized this. Since that (request) left on Saturday's plane, MI thinks it should be taken up today. If they can't resolve this, it does not matter since they can here (arrange it meanwhile). Just take advantage of call. The most important thing is about the order - whether they have sent the money, how it was sent, etc... Fine. MI will call Habana. MO is Sr. Sanz (apparently).

The other day Alvarez asked Sr. Inzunza - the other day MO gave MI a "out" which Alvarez sent to Cuban Intertex (ph?) and it now "Imprenta Nacional, that is, Alejo Carpentier (ph), via Sr. Osfala (ph) sent word to" MI to take him two. MI had asked Sr. Inzunza to send him at least one but he has not sent it to him. Just a moment. Tells Inzunza to send MI a copy of "Ingeniero Azucarero." Fine, they will take it to him.

FO has not telephoned her after the concert because he has had a lot of work. FO says she went out of town afterwards. Spent nearly all last week in Jalapa. Her husband then joined her and they went to Veracruz.

FO has not had news from her friend. (Recording too low.) Has not answered her...inaudible. She is also in doubt...ind...and they may begin on the 20th...so they could not move. Would have to begin rehearsals with the orchestra...If they start the 20th and not the 28th, FO could not move (go anywhere). If they start on the 28th, there would be time. Should know definitely this week. Ap. asks her to let him know definitely and also write down the name and the address of the teacher there so Ap. can cable him directly so FO not have to worry about this. It does not matter, since that is her work...The bad thing is when she does not have an answer. They will continue waiting this week and (if there is no answer by then), they will leave Ap. in freedom to select any other Director (of orchestra?). Ap. says he is not the one who decides. Ap. sent his report to Habana, after what FO said. They will wait this week. Next week can see if FO's friend writes. After 14th July, (can get together) because Ap. has a series of diplomatic receptions to attend. Would like to get together to hear FO's friend (play), Margarita. After 14th July. Ap. asks if FO could play for them at Embassy or at the Instituto, but Instituto is not good for piano concert. She would be happy to do so. Ap. has some Cuban piano music he would like to show her and see if she likes it. They can get together... Best FO's husband can pick it up today or tomorrow, etc., at any moment so her husband, when he goes to office (doctor's office, so is a doctor)...Also they have pending the records of Ap. of classic rhumbas of Cuba and the anthology of the "Danzon," to explain this to her - listening to these, etc., so she will be familiar with this when she gets to Cuba. 20.5 contd.

About what they talked about, the contest, the best idea, S. thinks, is to invite a series of young writers, intellectuals, and convince some of group to enter competition. They can get together and talk about this next week. S. has a lecture a week from Sunday and is not sure about having a get-together next week. Ap. thinks he should think about list of people to invite and Ap. has another list. Will call people to party (to talk about this). Also - should invite people who went before (to Cuba) as judges. Ap. has the names, and will invite some of them. Some could talk about novel, tales, theater, etc. S. has classes late on Friday. When could they have get-together. Could be Thursday, 17th (July). G. points out that he does not have time. There are two problems - one is economic and the other is the fact that he can't find the work. Doesn't feel he can leave his work here. G. is opening a play on Friday. G. will think about this and call Ap. on Monday. JJS is very occupied in this play now. East before Monday, that is late. Asks if Landruff (ph) is going to close. Yes. "The experience of the already held contests shows that, not only by the number and ~~at~~ geographic diversity of the participants, but also for the quality of the prize winning works and for the composition of the judging boards, this objective is being achieved more and more fully.

Rector would like to know if they can get the tickets (to leave on) Friday. Ap. has thought about a Directive Board, without President, but with 4 members. He had thought about this. Vocales: Montano, Zalce - Vocal Ejecutivo, Castro Villagrana and Lozano - Secretaries - and the rest to help out, including MO. MO thinks that Zalce will probably present the same reasons for not accepting Vocal Ejecutivo as he presented for not accepting the Presidency (of Instituto Cubano. Probably Leopoldo Zalce). They will see, Ap. thinks he is more willing to go along with this since this is not so evident. MO points out that Zalce should remember that the name of the group, and Ap. recalls how they had that changed, would not represent any reprisals for him (Zalce). Ap. asks MO to talk over matter with Montano and ask him and Villagrana when they would like to have the meeting. All right. MO will call them this afternoon.

Ap. takes phone. Greetings. Have not talked for a long time, but Ap. reads (his column) in newspaper. MO received Ap's letter on Monday and has been phoning Ap. in the afternoons. They usually go out in the afternoons. Would like to talk to him because Ap. has some things, books, for him (to pick up). MO offers to come by in 30 minutes. It would be difficult tomorrow. MO is mixed up in Publishing houses with respect to (his) books and (newspapers) with respect to his articles. Ap. has a lot of appts. and then has to go out. Wanted to talk to MO. Ap. only has some books, these are not urgent. MO asked Roa for a couple of copies of "El Retorno del Alvarado" because MO wrote an article in "Cuadernos Americanos," perhaps Ap. read it. No, didn't. ~~REDACTED~~ MO sent word to Roa that Maestro Silva Herzog had lent him the two volumes so MO could read them and asked Roa for these. Sent word via Retamar (ph). Ap. never sees MO. MO comes by (Embassy) sometimes, to pick up things Retamar or Alejandro send him, but Ap. is not always in. MO usually comes in in the afternoons and Ap. is not normally there then.

Ap. checks and says the package that Ap. has there is from La Casa de las Americas. Ap. asks if MO couldn't come by tomorrow morning.

2.0 Out to 03. Time is 02.

2.0 In. Adelina Zendejas with Aparicio, who answers. Greetings. About AZ' gripe. AZ saw Miraval yesterday because AZ took a lot of medicines by there. She had taken these first to the Instituto (Cuban) but was told best to bring them by Embassy. AZ had asked for the medicine which they most need (in Cuba).

Aparicio is organizing two ceremonies at Instituto. One is an exposition of engravings of the Taller de Grafica Popular, probably at end of this week or beginning of next week. Another thing - with all the judges who have gone to Casa de las Americas, to promote the attendance to these affairs (in Cuba). Can AZ go? Of course.

Did Ap. read about Frida on Sunday (Friday?). Yes, it was something which had never been published about Frieda since they always talk about her in connection with Diego (Rivera). AZ wrote the article. Frieda married Diego when she was 18 years old. She was an extraordinary person. AZ loved both Frieda and Diego very much. She was their friend for 40 years.

Ap. is writing about era when Antonio was here. Would have to check "El Machete" and "El Imparcial." He should go to Newspaper, magazine library, located at Calle de Carmen and San Ildefonso. Ap. will go see about this. Look at newspapers of that time. Antonio at times gave speeches and sometimes in the student newspapers he wrote a lot. He might find these there. Also find out who has collection of "Politicromias." Asks AZ to jot down the places where he was or appeared. He also had a lot of meetings. He gave impetus to ...Rojo Internacional. It already existed here, but he pushed it. He founded the infantile, (children's) and juvenile (youth) sections. AZ entered this and they killed him 2 days later. He was very active. He went into the different Facultades (of Universities) and always spoke. Some of these speeches must be published in the newspapers. Julio Antonio. In the leftist magazines, AZ has nearly all these. AZ is also reconstructing something else on basis of magazines, and she will look for this at the same thing. She has seen some things of Julio Antonio, while looking for other things. AZ was going to Cuba on the 18th, but in view of the World Congress of Workers, she won't go. She will stay here until Sept. Ap. talked to Nacho a short time ago about Congress. It is very interesting. AZ is interested in staying here for this - to organize the congress - and also (to help) Cubans. AZ was going to see her (Cuban) family - her "fat" father, but she knows he is fine (adoptive). AZ will talk to someone who should know about Julio Antonio. This man is professional newspaper clipper. Moreover, the student newspapers should have a lot of things on Julio Antonio. Ap. ~~him~~ belongs to something of University of Habana. Ap. wants to help some in investigation on him.

Has only received the first two issues, but these issues don't get here or they don't send them. In one of the magazines of Casa de las Americas, which Ap. gave P. P. found out she had published something, but she never says anything. Maria Teresa gave P. the first or 2nd copy. Ap. will try to get another copy for P. and others for distribution.

The national committee met last night and they had thought about asking the Cuban Embassy about the possibility of some of them attending the 26th July festivals. In case there is not sufficient time now for this, they did want to advise the diplomats of their desire. Do they want materials? No, they want to get in touch with some diplomat of Embassy. (During wait, Ap. said they were going to give him one at the gate. "But it is the same (one) as Lombardo Toledano (or of or by Lombardo Toledano).")
Montero takes the phone. Raquel told Montero about something and there is a space tomorrow. And he has arranged for them to keep one space for tomorrow. Try to see that the suitcase come today. M. will check with Habana to see what they will say and will stay tomorrow. Or stay until Monday. Is there a flight on Monday? Yes. When did they say they would return the suitcase from Los Angeles. M. is not sure about this. Is waiting to see if they took it off somewhere else or someone else took it. If they took it, it will be terrible since all his summer clothes and gifts for Virginia are in it. They will have to be responsible. Yes, but they won't replace things for Virginia since they are things from Brazil he bought in the different places he stayed. They can't replace this even if they pay him 5 times the worth of the suitcase. And what do they say? They are trying to locate it. They have the ticket number and everything. Isn't it at airport here? No. Then, Montero should come stay with them (at Ap's apt). M. will be at the hotel until 1130 or 1215 and then go to the airport. Has to go talk there with the man who was there last night and then go to Aparicio's house. Ap. thinks he and Amb. will have to go to the airport today since a guest Rector (of University) is leaving. Then, Montero could come with them. When would they go? Ap. is not sure. M. should go make his purchases and then go to the house. In case Raquel is not there, wait there since she might have gone for children. Ap's address - MO knows it: Zamora 199A, Colonia Condesa, corner of Michoacan. In case Raquel is not there, then come on over to the Embassy. M. will go there, then, around 1200.

a scholarship to study in Cuba last year (presented the application last year?). Come at 0930 on Monday.

6.7 In. Montero with Aparicio, who answers. M's suitcase appeared. A Sra. who lives here in Mexico had taken it - by error. M. is not at Varig offices and is going to leave today. They can see one another at the airport. Ap. has an appt. at 1100 - the Director of a ballet - something important for them. They may go to Cuba. When does M's plane leave. Cubana told Montero to be at airport at 1200, but Varig airport said the Cubana would not come until 1330 and won't leave until around 1500. Come have lunch with them. M. is going to the airport now - to check to be sure it is his suitcase. He can check it there at the airport. Don't check with Cubana. All right. Go first to his hotel, pick up his suitcase (other one), go to airport and check all luggage there and then come to Aparicio's. But take out Ap's record. No, he has that in his hand.

8.5 In. MO, calling for students of the Escuela Nacional de Ciencias Politicas, with Aparicio. MO got Ap's message yesterday. When could he see Ap? Can he go there at 1115. It is now 1030. MO is Andrade Bargasabá (ph), Director of the Cultural Committee, w Ap. says he accepts their invitation. However, Ap. would like the Secretary of the Facultad that they are going to do this. Yes, but also the Director of the School will be advised. Wanted to be sure first that Ap. would accept. What time would this be? At 1930 on Monday. That is all right. Does Ap. have any material, films, etc. so they can get a projector for him. No, films are not any good and they can show films another time. The lecture will last some time since there will be a lot of questions. MO offers to come by the Embassy. Not necessary. However, on Monday he would like one of the students to come by for him to take him. MO will pick Ap. up at 1900 on Monday at the Embassy. Fine. MO will now advise Dr. Gonzalez Casanova (the Director of the School). To whomever it may be.

About when they can put up the material....MEM will go today at 1700. Both will go today.... WO will phone Vasquez (about putting this up).

WO knows that it is not known when the Cubana airplane will arrive. Certainly guests only will go but in case there is someone going, a friend, he would like to send an open note to Clara asking how things are at home. Asks if he could get someone to take a message for him. No one he knows from the Embassy is going. In case he hears of ~~xxxx~~ someone, will call WO.

This Argentine newspaperman, who works now with Tamayo, asked WO if he could go "there." WO said he would ask. That is, on the 16th. It would be good. Bring him tonight to the ~~at~~ inauguration. Asks if he did not receive some records in their name. No. From Habana? No. Dr. Ada Curi (ph) was going to send these. Has not sent Ap. anything. They could not bring these when they returned and she said she would send this with Aparicio. Have not arrived. She gave them 2 records to each one. They will arrive eventually. ~~xxxx~~ Write her or write the widow of Cabrera. She was here (widow of Cabrera) was here in Mexico. They had dinner together one day and she said she had sent the records WO had bought since she had bought 10 records. Have not arrived in Ap's name. Besides Ap. has a lecture on the 1st (of Aug) in Merida. Correa came by the Embassy one month ago asking for their collaboration. Is Correa here in town now? Yes. He will explain what happened. Ap. interrupts and says today is a bad day for them... They have an airplane leaving (for Cuba) and all guests going to 26th celebration are leaving. Come by to see Amb. this afternoon. Come around 1700 or call the Amb. Phone is 14-42-37. MO has a consultation to give at 1700 (is a Doctor), but will cancel this since he can't do this. Not that Rojas knows of, but is not sure. Will Amb. say goodbye to the Colombian (Amb). Doesn't know, call his office, 14-42-37. In case they can't send photographers, ask Dr. Aparicio to take some photos of reception. Can send it to Sr. Miguel Angel Alvarez, with article on what Ap. wants said (about reception). Montero has not come in. Just a moment, someone is ringing...
No, it is Sra. de la Mora.

16.2 In. Garcia Márquez asks Rojas (v), who answers, for Aparicio.

19.0 Out to 21-61-94. Aparicio (v) asks WO, who answers, for Dr. Ermilo (not Emilio) Abreu.

Ermilo Abreu takes the phone. Ap. talked to Margarita. Wanted to ask if he had received the invitation to Cuban Embassy reception of Sunday. EA does not know. Ap. says that Margarita (his wife?) said they had. In any case, he would have to come without an invitation, but should.

Habana has asked Ap. for curriculum vitae of EA and Margarita. That is easy since he has it printed.

Invites EA to inauguration of Mexican engravings tonight...

21.7 Out to 25-07-95. Rojas with WO (whom he calls by name - ind), who answers. R. has an invitation for Sr. Farfé Gamara (ph), the husband of a Japanese artist. Does WO have his address. They live in Nonoalco, but R. does not know the house number. These names came in a Note of Mimrex in about the month of June. From what Department? Rojas does not know. Would it be Regional Politics? She would have to check all the files. Wouldn't it be Regional Politics - since they write them (to Cuba) on this matter. Rojas does not know. Cuba sent Ap. a letter so that Ap. could get in touch with this man. It was after the 20th since Ap. got in touch with them on 30th June. One moment.

WO returns to phone. She looked from beginning of June to date, of entry (dates) of Mimrex in Regional Politics. There is nothing on this in this period. The name is in the text. She looked in the text. Might be some other business. R. asks her to wait a moment.

R. returns to phone. He has a note answering this Mimrex: On Monday, 29th of this month, I located and interviewed the Japanese violinist, Yuriho Kurunuma (ph). But they did not put down the reference to the note. Where did they send this: To ~~the~~ Regional Politics. These are cultural things but...WO does not have anything in Regional Politics. Their letter was dated 30th June. WO can't locate this without a date for reference, reference something, business item...They might not have delivered this note to WO. Doesn't WO recall a note which Rojas took to her which had a picture of the Japanese woman there - with a violin. That was the one they sent out. She does not have a copy of this in Regional Politics. Rojas says this was a letter signed by the ex-Amb here, Lechuga, who is now in United Nations. Rojas recalls this. Then, did it come from the U.S. or did it come from Mimrex? Rojas is not sure. She will check in International Organizations if there is something from Lechuga.

Checks and says in letters from Lechuga has nothing referring to her. WO asks if this artist is acting here. Doesn't know. Ask at the Instituto Nacional de Bellas Artes to see if her address is registered here. But no one is there at this time of the day.

1. The Station has read with interest the discussion of the misuse of cryptonyms forwarded by reference A. The Station agrees that for the sake of clarity and to reduce the possibility of error for those who are not familiar with Station operations, strict adherence to the true meaning of cryptonyms must be insisted upon. The errors in use of cryptonyms pointed out in reference A are due largely to the application of cryptonyms over the years to operations related to, but yet distinct from, those to which the cryptonym was originally assigned. The Station will make every effort to correct its use of cryptonyms in the future, and as a first step to this end it is suggested Headquarters assign cryptonyms to the photo-baschouse targeted against the PHUMEN official installation and to that phase of the LIFEAT operation employing the MISTRAP technique. These points are further discussed in paragraph 3 following. *LIOXIDE* *LIOXIDE*

Station has noted that reference A, in dealing with Station's confusion in use of cryptonyms, has used the cryptonym TPELIDE extensively. Station records indicate that this cryptonym was cancelled per COM-P 10-31 of 4 November 1963. Station requests it be informed if this cryptonym has been reinstated, and if it was originally intended to apply only to ODYCKE installations. The Station wishes to clarify an area of possible confusion by pointing out that all technical efforts targeted against the PHUMEN official installation do not relate to LIFEAT. Only those operations as PEMPULSE, "MISTRAP" and LIFEAT/LIOTIDE are properly in the sphere of LIFEAT. The LICCOL-11 type operation relates to MICHARITY, whose purpose is to initiate these operations. LIFEAT personnel have never been employed in this area. If, however, LIFEAT personnel could at some time provide the necessary access for LICCOL type operations they would be considered for the task.

For Headquarters information, the last LICCOL targeted against the PHUMEN official installation ceased functioning in March 1962.

<p>2. The Station hopes to add to Headquarters security records concerning the operations discussed in paragraph 6 of reference A with a short discussion. It is felt the LIFEAT system of numbering its Annexes must be explained. The present system evolved from long LIFEAT experience in working with the indigenous operational level personnel in the project. It is designed primarily to make the routing of tap lines to one of the LPs as simple as possible for those agents and still use a system of numbering that can be applied throughout the field operation and in the necessary communications between Station and Headquarters. Annexes are designated by Roman numbers I through X although all these numbers are not in use at any one time. A particular number is assigned when the LP goes into operation and this particular LP keeps that designation until it is closed. When it is closed a new LP which provides approximately the same coverage is given the Roman number of the LP just closed. Since the operational personnel must install the lines to the new location and remove those from the old site, they know the current site of each numbered LP. Since LP sites are changed with some frequency, and since the inception of LIFEAT there have been numerous sites employed for LPs, any other numbering system would have resulted in the designation of the current LP sites by widely separated numbers. This, from LIFEAT experience, causes confusion to those agents responsible for routing taps to the various LPs.</p> <p>Therefore, the LIFEAT ANNEX VI originally used as terminus for the "MCTRAP" operation was closed due to the physical deterioration of the property and the planned divorce of the basehouse keepers, LIFEUD-14 and LIFEUD-17, as noted by reference A. However, late in 1962 a new LP was opened to cover approximately the same target area as that formerly covered by the LP operated by LIFEUD-14 and LIFEUD-17. This new LP was then designated Annex VI since it took over coverage of the target area of the "old" Annex VI.</p> <p>The reactivation of "MCTRAP" was accomplished from LIFEAT Annex IX (called "basehouse Charlie" by the MCKHARTY technician in his report for KURLOT) in November 1965. It had been planned to use the basehouse formerly employed as the LP for the LICCOOLs targeted against the PERUMEN official installation ("Basehouse BAKER" or "LIERODE") for the "MCTRAP" terminus thereby making LIFEUD-22 and LIFEUD-23 the basehouse keepers for the operation. However, it was learned that the necessary telephone line connections could not be made at that location. It was decided then to employ LIFEAT Annex IX for the "MCTRAP" LP with LIFEUD-5, LIFEUD-11 and LIFEUD-15 as basehouse keepers. LIFEUD-22 and LIFEUD-23 continued in their assignment of photo coverage of the PERUMEN official installation from "LIERODE".</p> <p>Also in relation to paragraph 6 of reference A, the "six miles" mentioned therein refers to telephone line distance not line of sight distance.</p> <p>3. The following points are keyed to those questions raised in paragraph 7 of reference A.</p> <ol style="list-style-type: none"> <u>Photographic coverage.</u> A separate project will be prepared to cover LIFEUD-22 and LIFEUD-23. This project will include all activity and expenses connected with photographic coverage of the PERUMEN official installation. <u>LICCOOL.</u> No LICCOOLs are presently active. The Station is considering further operations of this sort and will obtain prior Headquarters approval before any such operations are mounted. <u>LIERODE.</u> At present the LIFEAT/LIERODE coverage is limited to the "MCTRAP" operation. LIFEAT Annex IX (with LIFEUD-5, LIFEUD-11 and LIFEUD-15 as basehouse keepers) is employed for this purpose. <u>MCTRAP.</u> Following Headquarters suggestion, Station requests Headquarters supply a new cryptonym for this coverage. It is suggested that file number 50-6-32/7 be used for this phase of the LIFEAT operation. <u>Consolidated Project.</u> Although a consolidated technical project would at first appear to be a time-saving, hence welcome, simplification, it is believed that in view of the fact that the present MCTRAP operation fits properly into the LIFEAT complex, it would perhaps be better to refrain from initiating an umbrella project for all technical activity aimed at the PERUMEN

official installation. Since the premises occupied by LIFEUD-22 and LIFEUD-23 are well situated to serve as an LP for LICCOL type operations, it may prove wise to expand the project to be written for these two agents (see 3 a, above) to include provision for LICCOL LP activities.

EXCERPT FROM HWA-12505, 27 March 1959

OPERATION LIFERODE

On 19 February 1959, the LIFERODE operation (preliminary step) was mounted against the target in Mexico City (see MEXI 3382). This operation has a preliminary move to ascertain the best conditions under which to mount the technical operation cited in MEXI 3097. As of this date, 24 March 1959, the Station contemplates executing the LIFERODE operation in its entirety sometime during the first two weeks in April. The "take" from the LIFEAT aspect of the LIFERODE operation thus far has been scanty and of little operational value, nevertheless, it is believed that this is due chiefly to the absence of key personnel in the target installation.
