SUBJECT Operational Report for Project LIENVOY -- 1 June - 31 July 1964

ACTION REQUIRED REFERENCES

Reference: HMMA-23632 dated 10 June 1964

1. There follows the operational report for Project LIENVOY for the period 1 June through 31 July 1964.
2. Target Lines. As of 31 July 1964, the following lines were being covered:

20-30-48	General Lazaro CARDENAS del Rio
24-18-18	Lic. Braulio MALDONADO Tapia
20-83-46	General Lazaro CARDENAS del Rio
23-85-25	Lic. Alonso AGUILAR Monteverde
46-12-70	Lic. Vicente LOMBARDO Toledano
35-59-82	Union Nacional Sinarquista
11 - 43-52	Polish Embassy (cut off on 20 July 1964)
11 - 25-49	Polish Embassy (connected on 20 July 1964)
15-60-55	Russian Embassy
45-59-52	David ALFARO Siqueiros
35-36-52	<u>Politica</u>
14-42-37	Cuban Embassy
45-30-91	Czech Embassy
25-59-44	Cuban Embassy
25-09-14	Cuban Embassy
28-67-70	Polish Embassy
46-11-30	D.F.S.

3. Processing of LIENVOY Information. The only change in the LIENVOY processing during this period was the addition of another line (25-07-77), Elena VAZQUEZ Gomez, to those lines from which LIENVOY transcribers provide full Spanish transcripts. This was to support a Headquarters PBRUMEN/AMROD request and places a heavy burden on the three transcribers who are also doing full transcripts of the eleven other lines noted in reference. During June/July 1964, there were 1222 tapes recorded from which 3638 pages of text were transcribed. In addition, 230 pages of text were transcribed in the daily "resumen" which consisted of only the significant conversations from lines not fully transcribed.

4. Exploitation of LIENVOY Information. In early June the first of a task force of four persons from SR Division arrived at the Mexico Station to begin collating information on Soviet Embassy personnel. This data was largely collected from LIENVOY over the past four years and has remained in the Station files in the absence of personnel for proper processing and exploitation.

MEXI-9705 provided information for a potential REDCOAT LCIMPROVE recruitment.

MEXI-9737 reported travel of Soviet officials to the Mexican-United States border area to purchase a new car 31 May to June. The information on Soviet and Soviet Satellite travel is reported simultaneously to the local Embassy Political Section and to the Office of the Legal Attache where it is again reported by them to their respective Washington Headquarters as well as back to the Mexico Station.

MEXI-9740 reported that a PNG target, Nikday Sergeevich LEONOV, was returning PCS to the USSR.

MEXI-9703 reported travel to the USSR of Pascual GUTIERREZ Roldan, Director General of PEMEX.

Through LIENVOY the Station has been able to monitor frequent contact between the KGB resident and an agent which the Soviets recruited when he was assigned to the Mexican Embassy in Moscow (see MEXI-9755-RYBAT).

MEXI-9776 RYBAT reported contacts between the KGB resident and U.S. citizens.

MEXI-9792 reported AMSTET-1 travel outside Mexico. At this time AMSTET-1 was a recruitment target.

MEXI-9773 reported contact between the Soviet Embassy, First Secretary and suspect KGB Vladimir Ivanovich ANDREYEV and Costa Rican Embassy Honorary Commercial Counselor who had been used in the past as a

means of access to Soviet personnel.

MEXI-9813, 9830 and 0412 reported U.S. citizen Ray SPEDDING was trying to arrange through the Soviet Embassy in Mexico for permission to go to the USSR. (Subsequently, in late August 1964, the Mexican press reported that SPEDDING had committed suicide in Hotel Edison.)

LIENVOY was of considerable value in monitoring the reaction to AMSTRUT-2 defection and also was of value in monitoring the activities of AMSTET-1.

In addition to these reported individually, several other U.S. citizens contacted both the Cuban and Soviet Embassies. When identified, these names were reported to headquarters and in some cases to the Office of the Legal Attache.

MEXI-0204 revealed a contact by Ana Luisa DURAND, Puerto Rican, and the Cuban Embassy regarding a teaching position in Cuba.

MEXI-0327 and 0424 reported that the Czechs intended to open an Embassy in Costa Rica.

5. Liaison. CURTIS had several meetings during this period with LIENVOY-2 and LIELEGANT. Subjects discussed were reported by cables.

6. Security. There were no security problems or incidents during this period.

7. Technical. There were no technical problems during this period.

8. Personnel. In July, representatives of the Inspector General's Office visited the Mexico City Station, reviewed LIENVOY project files, and met outside the Station with Arnold F. AREHART. They appeared to be pleased with the project and recommended that Staff Agent AREHART be given a promotion.

Thomas W. LUND, Mexico Branch Chief, visited the Mexico City Station 16-19 July and was given a general briefing on LIENVOY.

MEXI-0286 reported the desire of the wife of Orville HORSFALL to obtain employment at the Belgian Embassy. As a result of this and for better security in transporting the LIENVOY reels each day, HORSFALL was eliminated from LIENVOY as a courier. He still has tourist cover and it was felt unnecessary to take the risk of an automobile accident or exposure of his early morning meetings by accident or design should the Belgians conduct an investigation or neighborhood check. Such exposure could be most embarrassing during the pre-election period of LITEMPO-2. RIGGS and AREHART again resumed the daily deliveries of reels to the transcribers or their case officer. The risk of an accident is always present but both RIGGS and AREHART have some cover which should prevent examination of their briefcases.

The wife of Douglas J. FEINGLASS was employed to assist with LIENVOY translation and transcription duties, freeing FEINGLASS to concentrate on assessment and characterization reports on Soviet Embassy personnel as well as building up a library of voice recordings.

9. Production. There are attached lists of the 128 reports, cables and dispatches forwarded to Headquarters during this period.

10. Emergency Contact Instructions. There has been no change since the last report on contact instructions.

Willard C. CURTIS
