- 1. On the afternoon of 28 Cotober 1959, Jane Roman waked mewhether we had any addresses for TURAMA/1 in the United States. She indicated that his Fabich was interested in this and that the FBI might want to consider surveillance of T/1 in the U.S. at any place where he was known to us to be. One of the reasons for such surveillance would be to check on the possibility of fraud on his part.
- 2. The information which follows has been taken from the tapes of the conversations between T/1 and the Swedish Dask case officer. If it is incomplete, it is nevertheless the best we can do:
 - a. Some of the people whom T/l ampects to see on the West Coast during the approximate period 27 October to 5 or 6 November 1959 are:

							a Monica;	Calif.	
		Gierra Madre, Cali				Calif.	.11.		
49	Ers.								1,8.
	Naval	Orgnanca	TPET	Station.	Cains	Laka.	Calif.	-	

1/1 also planned to spend a lay at Death Valley, Calif., but wild not know in accounce where he would be staying.

b. On for 6 Howesher he will return to Washington and contact us, probably staying at the Poger Smith Hotel. 'Notes the Englance of hotel might pick up our case officer or others in contact with him, hence would be undesirable.)

3. With respect to the practicality or wisdom of surveillence, we feel that the FBI decision should be made after due regard to the considerations already made known to them in connection with the scritoring of the New York City phase of the operation. The prosent consequence would seem to be the same. As for the possibility of fraud, we are inclined to doubt that T/I would be tempted in this direction. He was told by his case officer that he must be prepared to outline to his Soviet case officer in convincing fashion and in detail every effort he makes to fulfill the requirements given nim. Furthermore, on the tasis of past performance we believe he is truthful in what he tells us as far as this operation is concerned. However, in the opinion of the case officer, it is not unlike him - in strictly personal matters - occasionally to exaggerate if his own recutation would be enhanced thereby. It is problematic whether this tendency would ever extend to outright deceit.

i. In the interests of consistency, I thought this reply to Mrs. Roman ought to be channeled through you.

S. We would appreciate hearing from the Bureau what decision they make regarding surveillance of T/l.
