## MEMORANIAM FOR THE RECORD

SUBJECT: Meeting with fir. William Pawley and Publo FRENES on Financial and Organizational Matters

TIME & PLACE: 1455 Rours, 2 Morch 1960; Mr. Payley's Office in Miami

1. Jacob Esterline, using the name Jacob England, met for two hours with Mr. Pawley and Mr. FREYRE on the date indicated. The following subjects were covered during this meeting:

a. Regarding the bond issue which Wr. Pawley is floating in view of raising \$2,000,000 for support of opposition activities, Esterline told him that the first two candidates to sign the issue were quite acceptable. These people, are Emilio OCHON Ochos and Dr. Gustavo CUEM/O. Esterline said the other two Mr. Pawley had suggested were turned down in Washington--not for any personal reasons, but merely because they had been too closely associated with BATISTA elements in the past. After some resistance, particularly with regard to MARQUEZ Sterling, Mr. Pawley's third candidate, he agreed to consider others. Two of the most grominent cambinates mentioned were Antonio VAROMA, Autentico leader, and Jorge EAYAS, former editor of the Habana daily newspaper, La Avance: Although Mr. Pawley and his colleague, Mr. FRZYRZ, had no reservations with regard to ZAYAS; they were of mixed emotions on VARONA -- particularly because of a recent report they had received from RUBIO Padilia in Habana indicating that VAROLA is Author to the left than had formerly been considered. This point was debated at length and it was finally decided that the resolution would turn on whether or not Nr. VARONA would be willing to come to the States and formally join the opposition.

(NOTE TO MR. GOURGE: (1) Where is ZAYAS at the present time and when can he be brought back to the United States to sign the bonds? (2) Have we ever had any leftist traces on VARONA before? Also, is the Station in touch with him and could they determine through a channel other than RUBIO Padilla whether VARONA will, in fact, come to the United States for a purpose such as-this?)

Mr. Pawley is pressing for action in getting the bonds signed and his point is well taken. It must be noted, however, that it would be foolish to accept names which are less than acceptable because, in the long run, it would defeat our purpose.

b. On the question of publication of a Cuban newspaper in Miami, Esterline said he understood that it. Pawley had made arrangements for the publication of Diario de Marina in Miami. Fir. Pawley said that he had, and with enthusiasm said Unit he had also been able to locate Spanish conversion kits for the limotype machines which does away with the necessity of buying the machines. Esterline then queried him on what his reaction

SECRET

to printing Avance since it would be defunct for all practical surposes in Cuba. Mr. Pavley again anid with enthusians that he would be prepared to print Avance as soon as ZAYAS returned to the country. It was mutually agreed that this should be one of the priority propaganda targets for the immediate future.

- c. During a recent convernation with Chief, Will in Washington, Mr. Pawley made the remark that through his friends in Miami he had contact with action groups in Pinar del Bio and Camaquey. Prior to Esterline's departure for Miami, C, Will asked him to look into these groups in more detail with Mr. Pawley. The subject was accordingly raised and Mr. Pawley and Mr. Fiffyaz, who had most of the substantive information, provided the following:
  - (1) On Finar del Rio, Mr. FRETRE said there was a group in that erea, but he did not have the mass of it at his fingertips at the mement. He offered to get it within the next few days and make it available through Mr. Pawley.

(2) On Camaguey, Mr. FRETTRE said that a Doctora (sp?)
is actively working with retired elements of the old army living
in that area. This groupand it would appear that she may have
contact with 300 at the moment (the total group is approximately
4500) is supposedly organizing as a resistence army in Camaguey.
Dra. has complete responsibility for this organization. She
is sided by a Dr. Mr. FREYIC said that should any-
body attempt to contact ind she was not present, contact
could be made with Dr. who would nut them in teach
with her. Mr. FREYRE appeared to have no further details of the
group other than those set forth above. He did say, however,
that ther e was an existing contact plan which anybody could use
with complete security either on the telephone or in a personal
meeting. This plan would work as follows:

The person contacting Drn. should say they are coming from Zeta 39 to talk to Aden 37 (these are old scrority and fraternity designations). Having established this, they should then say to the Doctora that they are coming to consult about agrarian reform. This will establish the bona fides of the person making contact as a friend of Mr. FREYER.

(Note to Mr. Reynolds and Mr. Toomey: Please have somebody prepare a dispatch on the acceptibility of the FRATES group and suggest to the Station that licalquarters is interested in determining more precisely the numerical strength and composition of Bra. group. The dispatch should also suggest that Station Rahama select a non-official person to make this contact. Although I would recommend that an American be used for this, I really don't know enough about the situation in Caragrey to know whether the Exctora would be very happy about neeting an accordance FRETES, however, gave no indication that an American making any contact would be objectionable.)
