Subject: Craig Tappa

he called at 12:30 on Friday Dec. 22. Because you were not here the call was put through to me (he did not want your voice mail.)He sounded frustrated about what he perceived to be a "lack of interest" in the Paschall film on our part. I assured him that, of course, we are interested and reminded him of our mandate and assured him that we are pursuing it effectively and efficiently.I pulled his corr. file and reiterated the language you used in your recent letter to him. I also told him that you were the appropriate person to answer his questions and that you did, in fact, answer them.He was not pleased with anything I said and wanted something out of our conversation, so I told him either you or me would write to him if there were any developments.We can talk about this when I get back on Thurs. Dec.28.
