Kennedy. The ARRB was established by the President John F. Kennedy Assassination Records Collection Act of 1992 (PL 102-526) and was signed into law by President George Bush. The law gives the ARRB the mandate and authority to identify, secure, and make available all records related to the assassination of President Kennedy. I am enclosing a copy of the act and some explanatory material. The scope of the Review Board's mandate includes assassination-related records in the custody of federal agencies, local and state government entities, as well as those in the private sector. From our telephone conversation I understand your office may have assassination related records concerning an agreement between the Department of Energy, House Select Committee On Assassinations (HSCA), Los Alamos Laboratory and the Aerospace Corporation. The Orville Nix film, Marie Muchmore film, Zapruder film, autopsy x-rays and photos were in the Record
