**Subject:** Board Meeting, etc.

The only scheduled event for the upcoming meeting is the CIA briefing that was discussed at the last meeting. Currently David Edger (ADDO) and Robert Caudle (Office of the General Counsel) will be here at 10:00 (with HRG and OGC staff) to address station and name issues. Other than the CIA briefing, we are planning for the individual review of records for the remainder of Monday and part of Tuesday, and a formal meeting on Tuesday afternoon to consider and vote on records marked for discussion. The State Department has reported that they will lift their objections to the release of the records that are referred to in the draft FBI appeal that you read at the last meeting if the Board delays the release until August 1, 1996. We are still awaiting word from the FBI on their plans for the remainder of the appeal. There are no significant developments to report on New Orleans.
