Subject: NARA document/chart, re: Warren Commission documents/exhibits
Some time ago, I secured a copy of a Marion Johnson-generated NARA document that described and cross-referenced Warren Commission documents (CDs) and exhibits (CEs), with a description of each. I lent this out to someone (I don't recall who) and have since misplaced my copy (if I ever made one). Does anyone recognize this document as something in their possession? If so, may I borrow it in order to make a copy for myself?
Body: Many thanks.
