Subject: BriLab

Just an update for you on BriLab, because I know you are concerned about it. I called Judy Bowen at the FBI today. She has identified from the FBI indices 163 conversations that are responsive to our request. She is in contact with a woman in the New Orleans field office who has been hand searching for the tapes, as the N.O. field office should still have the tapes, but does not apparently have a computerized indexing system for these records. The New Orleans field office staff woman is supposed to call Judy back this week with more information. I will let you know when I hear more. As we discussed yesterday, I still think it is a good idea to talk to the FBI agents who conducted the sting against Marcello to see what, if anything, they remember, and I will discuss it further with Phil.
