Subject: Call from John Judge re: footage

CALL REPORT Issue # 9 Date Created: 06/14/96 Who initiated the call? Review Board's representative in the call: Dave Montague Description of the Call Date: 06/14/96 Subject: Call from John Judge re: footage Summary of the Call: Dallas Project: John called to provide some feedback he heard from other researchers re: the Veazy footage. He said the following: Point a): 2 sequences seem to show the parking lot behind the knoll: 1st Sequence It's unclear as to the time of the sequence but his understanding is that it was taken within minutes after the shooting & done by Don Cook (he doesn't know where Cook currently is). There are several men wearing dark suits standing in the parking lot waving people away from the area; He believes they may be the "phony" SS agents supposedly in the area. This sequence appears to be taken facing away from the pergola. 2nd Sequence In the 2nd sequence, the hats are different from the Dallas detective hats & some of them are wearing trench coats. The 2nd sequence seems to be taken facing the pergola. It appears to be taken probably a few minutes after the shooting (which Judge feels may be significant). Point b): There's a truck parked on the corner of Houston & Commerce sometime after the assassination; It has 4 pergola dishes on its top. Judge does not know of satellite up-links at that time, but says they were pointing toward Commerce street. Judge is curious as to what the truck was & why it was there. He wonders (based on a recent public hearing) if it is related to an Army intelligence van in the area that day & that they were filming & photographing the assassination. Point c): The 3rd major area people asked about relates to the rifle. A rifle is shown being carried without gloves. This gun does not appear to have a scope. He suggests looking around 3/4 into the footage & looking for two guys appearing to be DPD officers walking along the edge of the Dal-Tex building. John Judge = 202-583-5347 (home)
