Subject: Re: Questions

Dear Gordon: Thank you for your message. I'll take the matters you raised in order. First, we are still waiting for a response on those Miami files you mentioned. Second, contrary to what you may have heard, Jeremy Gunn did not attend a meeting in San Francisco. Third, we are very much interested in the files from the Dade County Police that you indicated were about to be thrown away. If you have any suggestions on who to contact about the possible existence and location of other assassination records in their files, as well as preventing the destruction of such records, please advise me. Fourth, yes, Gordon, it is "nice and hot." But, when one grows up in Boston, the thought that runs through one's mind is "It's better than 20 inches of snow." Again, thank you for writing. Sincerely, Tom Samoluk

Subject: Re: Questions
Hi Tom, Has anything come of the Miami records search? I'm particularly wondering about the Miami homicide files of Roselli, del Valle and Masferrer. Some people have questions about a meeting in San Francisco over the Fourth of July. Why did Jeremy Gunn go to the meeting? It seems some people are making something sinister out of the event. They argue that since it was a "closed" meeting, why did the ARRB send a representative to obtain a single perspective. I found a file Friday being thrown away by the Dade County Police. It was dated March 1963 and titled "Threat to the President". Are you interested? There was also a CIA BOLO file asking local police to stop a certain car with guns headed to a Cuban group. I will look tomorrow at the two boxes and see if anything else pertains to you people. Nice and hot isn't it? Gordon
