Subject: Re: Questions

I thank you for your response to my message. Again, in order, first, I wasn't sure what "closed meeting" about which people are "still upset." If it is a reference to the experts meeting we held last year, I would suggest to those who are "still upset," it is time to get over it. There was no way we could conduct such a meeting with everyone who would want to attend. In addition, anyone who has information that they would like to provide to the Review Board is welcomed and encouraged to send it to us. The thousands of correspondence that we have received demonstrate that we are open to suggested leads that researchers think we should pursue. By the way, I neglected to mention in my earlier correspondence to you that based on your suggestion, we have now acquired from Lt. Kay, through a Deed of Gift, the "original" tape of the Somerset-Militeer conversation from November 1963. It is much better quality than what was in the Archives collection. The paperwork is still being processed, but it will be at the Archives soon. We thank you for the suggestion. Second, please fax or mail the records that you mentioned; whatever is easiest for you. Third, Capehart's name was brought to our attention by a couple of people who saw a newspaper article on him. As you know, we do not "finger" people or things, we review and release assassination records. I am unaware of any news coverage in D.C. I think the news article was in the San Francisco Chronicle, but I am not sure. The Board has not dealt with any records relative to this individual, to the best of my knowledge. Fourth, I have already suggested to the Executive Director that the Board establish satellite offices in Nassau and on Nantucket, for the appropriate seasonal use. Thank you for the advice. As always Gordon, a pleasure to hear from you and thank you for your substantive contributions to the Board's work. Sincerely, Tom Samoluk

 Subject: Re: Questions
 Hi Tom, I heard about Jeremy Gunn not attending. It seems people were upset that he was taking selective testimony and was unavailable to the general public. They are still upset that the Board had a closed meeting with some selected individuals. >>>> Third, we are very much interested in the files from the Dade County Police that you indicated were about to be thrown away. If you have any suggestions on who to contact about the possible existence and location of other assassination records in their files, as well as preventing the destruction of such records, please advise me. <<<< I am the one. The OCB (Crim Intelligence. SIU today) did not even have this file in their indices. All records for destruction go through my hands before they are tossed. Many times County Employees call to ask if the Clerk's Archives wants a certain record. I am always asking cops from different agencies to check their files. Everyone seems to be a closet historian these days. I reviewed the file
