Subject: rough numbers (documents released)

total: 3,5201,949 are consent release1,571 were voted on by the Board (559 in full, 1,012 in part)Keep in mind these numbers are still pretty rough. They do not include the Garrison/Wegmann documents (they were listed in the release by number of pages, not docs. I need to find that out.)I got these numbers by checking the consent release database in Notes, and by adding the numbers of documents released as noticed in press releases/advisories to date.Let me know if you have any suggestions/if I may have missed anything. Thanks.
