Mr. Samoluk, > 1. Thank you for the information on the journalist.>> 2. You should understand that records identified as "Referred, Postponed in >Full" are records that have not come before the Board. Records in this >category were referred to another agency by either the Archives or an agency >that possessed the records. The referral is made because it is believed that >the agency where the record is referred has an "equity" (an interest) in the >record. Our experience has been that agencies that have records to review >because they were referred to them simply have not processed them. There is no >particular reason, in our experience, for the slowness, other than they have >not gotten to the records. It should not be assumed that the agency is >deliberately holding back records; they often simply have not dealt with the re>cords. In this instance, I have shared your message with the appropriate >staffer to see if we can learn anything about these particular records.Thank you for that clarification. I was under the mistakenimpression that the Board had already reviewed them and haddecided to postpone them.>>3. I have also passed along your message on the DO personality file on Oswald.> Thank you very much.And I again thank you for your time and consideration.Mike Griffith-----Michael T. Griffith.
