Subject:	seal on labels for info packets
Body:	Chet will be scanning our seal into the computer so I can cut and paste it to our info packet labels. I checked with GPO about having them printed, and the person I spoke with said it is not something they have done in the past (to his recolletion) which gave me the impression that it could be quite an ordeal. Hopefully the scanned seal will look OK. We should be able to check it out on Wednesday.
