Subject: List of Potential Press Releases

Here is my "laundry list" of potential press releases (in no particular order) for the coming weeks and months:1. Hosty (planned for this week)2. NSA documents (Tim indicated that these would be ready around March 17; he has asked Chris to help highlight press-worthy documents)3. Military records (Tim indicated that the RIFS were being checked on these documents: as I recall they were some type of military teletype communications from 11/22/63; hopefully, Tim could help flesh out what is interesting about them) 4. Annual Report (probably will want to hold this one until we need it)5. Rankin papers (I'm not sure what the status is on these, but I'm sure that this is a good story, with some records highlighted. If nothing ready yet, we should see what has to be done and if we can expedite it)6. FBI Appeal (Thom indicates that Phil said we'll have to wait for State Dept.; but still worth a release whenever)7. Richard Case Nagell (Joan says some movement on a lot of Nagell records; I think with proper background and citation of the 800 page Russell book, this is worth a release whenever it is ripe)8. Garrison tapes (My understanding is that Dave Montague is trying to move the Archives along on this project, with emphasis on Perry Raymond Russo and Gordon Novell. This should get some attention because there will be audio for release. With the proper background, it should be a good story). 9. Draft Final HSCA Report (Joe Freeman had been working on this and I'm not sure what happened with it. I know the CIA had been going through it the last time I checked. Various researchers had asked about it and if there are a few interesting differences between the draft and the actual final Final Report, perhaps we could get a wire story out of it. I'll e-mail Joe Freeman to see if he can help on the status).10. Any Upcoming Shipments of Documents (I don't know what is coming up, but perhaps Phil can highlight something from FBI documents and our CIA folks can flag something in their documents. We should ask whether or not they think they have anything for us.)
