Subject: as we discussed

Kim Newman called today and said that the administration was going to support the Board's request for another year at full funding (1.6 million). The Administration will find the offset and send the info to the Hill in an amended budget although it is unclear at this time if it will be part of a larger package or sent up individually. OMB has requested a letter to Raines that says something like the following: While all the questions regarding the assassination of President Kennedy will never be resolved, the 1 year extension is enough time for the Board to finish a thorough and comprehensive review of assassination related documents and records. Tom suggested that this was similar to the Istook letter. Let me know if you need me to do anything else regarding this.
