Subject: Attempt to convert British RFK assassination tape to "U.S. Code" at NARA...

I met w/ Charlie Mayn yesterday & he examined the video tape labeled: "Robert Kennedy Assassination...Channel Four Television, 60 Charlotte Street, London W1P 2AX...Telephone 071.631.4444". Mayn found the tape is a "PAL" style & NARA doesn't have a converter box which will adjust for sound, picture & speed. Mayn said he also called some other government labs just in case we wanted to pursue it further, but had no luck. He recommends that if we decide it's worth any serious effort, to contact the video area w/in the Naval Photographic Center (at Anacostia, DC) or to use a commercial lab. I thanked him for reviewing the film.-----I also met w/ David Kepley to transfer Moe Weitzman's (poor quality) 16mm Z-Film. Weitzman previously said the film was his last remaining copy of the Z-Film (from his work over the years) & thought we should have it. Kepley gave me a receipt for the film.
