**Subject:** Transcript issue  
Both Dave and I spoke with David Kepley and raised the issue of the transcripts being in the envelopes. We were told that when the tapes were duplicated, the envelopes were opened. No transcripts were found. It is possible they could still be in the box itself, but we believe this is unlikely. They will let us examine the box and look at everything but we believe this is not needed. It seems that the best way to get transcripts may be to possibly have a professional transcribing of the tapes in question.
