Subject: NSA Documents

E- Based on Chris' demonstration of how voluminous the 85 NSA documents will be, is it too much for us to copy all of them, so we can provide people with sets? Remember, we will not be doing a "selected documents" package because of NSA concerns. However, I think it would be okay if we made them all available, without pointing at any particular one(s) in the package. It would probably require 30 package (10 for us, 10 for Steve, 10 for Susan Cooper). David may not want to do this, but I wanted to get your thoughts on volume. Please advise. Thanks. T
