**Subject:** Re[2]: Miami

I can set aside almost any date for the trip 6 weeks or so in advance. I guess I would prefer to do it on a Friday for less disruption to the trial week, unless you think a different day would be better. For a trophy document, are we making any progress on Cuban documents? I am open to whatever format you think works best. I would also probably consider having one other Board member go with me, along with you and perhaps Eileen. Let's try to talk by telephone in the next week about this. You could call Debbie and set up a time that will work with my trial schedule. Thanks, Tom. Jack

Jack: There have been no developments on the Miami front. Any focus on it was overtaken by the transition and the subsequent new responsibilities that followed the transition. However, I understand that this is something you want to do and I will now put it back at the top of the list as one of our priorities. I see the following as the necessary steps: 1. Pick a date for the trip (we would need about six weeks to plan, I believe) 2. Decide on format (mini media tour visiting local media or press conference) 3. Come up with a newsworthy announcement with which we would go to Miami; our news hook would be to announce a "trophy" document or set of documents that would be of interest in Miami and which we could display to encourage people to come forward with records. Please advise me on possible dates that you could make such a trip to Miami. If you want to talk about the trip, please advise me of a convenient time for us to do that. Re CBS: the tapes I watched of original 11/22/63 coverage, as well as the early specials are a great look at history. I hope we stay on track to get them into the Archives. I hope the trial with your pro se defendant is going well. I cannot do it too late in our tenure, then there will be little time to process any response we might get. I don't want to lose sight of this goal, Have there been any developments? What are your current thoughts on this matter? On another topic, it sounds like the CBS materials are very interesting.
