Subject:	In the event my plane goes down
Body:	I have left a copy of the hardcopy of the box-by-box review of the public HSCA Numbered Files on your desk. I am taking the original back to Phoenix with me so I can purge the computer list from there. Since we finished the work at NARA II, I have crossed out additional records which have been processed by the Board and which I have physically located here in our offices. This project is not yet complete, however, so you'll still see numerous entries where the far right column reflects some Board action but which nonetheless in not yet lined out.
