**Subject:** Letter from Dr. Caufield  
Tom --Here are the answers to Caufield's questions that I told you that I would send to you by e-mail.1.  
Documents on Joseph Milteer A number of documents in the "core and related" files reference Milteer, but despite all of the references to him in the HSCA report and numbered volumes, the FBI does not have him listed as an "HSCA Subject " file. I did a search in the "all FBI" database for the file number that Caufield sent to us and didn't find any records. If FBI has a main file on Milteer, we should probably request it in a request for additional information. I will put it in the "pending requests" notebook and talk to Jeremy about it.2.  
Documents on Edwin Walker Walker is the subject of our request for additional information, FBI-34. The FBI produced a number of files for our review and Marie has completed her review of the files. We will designate assassination records out of those files for inclusion in the JFK Collection.I decided that I would like to make a copy of the documents and RIFs that Caufield sent to us. Once I make the copy, I'll return the original letter to you.Thanks.Laura
