Subject: LBJ Library

It came to my attention that during the declass session Chuck Briggs discussed the handling of NBR sections in certain documents from the LBJ Library collection with you. I was not included in this discussion (and only found out about it when I asked Doug why some of the documents were tagged with a note by Briggs). Is there any particular reason why? I recognize you have a lot going on and this was probably just an oversight. I also recognize that Chuck is probably more accustomed to working with you and didn't realize that I was the person he should have talked to. However, in order for me to also do a good job for the organization, I should be kept informed of any decisions made with regard to what have been designated my areas of responsibility. No big deal, just something to keep in mind since you were welcoming suggestions for improving things around here. Thank you!
