Subject: Angleton Church Committee Testimony

DiEugenio called and left a message for me about "the" Angleton Church Committee transcript and asked if I could send it to him for an upcoming article. I returned his call and left a message saying that there are five transcripts and that they are now at CIA undergoing declass. I told him they probably wouldn't be available for a couple of months. To: Jeremy Gunn/ARRBcc: Ron Haron/ARRB From: Bob Skwirot/ARRB Date: 12/31/97 12:13:19 PM Subject: Angleton Church Committee Testimony I spoke to Barry about the Angleton transcripts. He was unsure if they would have redactions in them when they are reviewed but guesses that it is likely they will. He had not planned to process the Church committee records before mid-January. I requested that he work on the Angleton testimony in advance of the rest of the Church Committee records. He will let us know when he thinks they might be done.
