**Subject:** Manchester

I searched our data base of all LBJ Library RIFs for all memos from Bundy. My search retrieved roughly 43 records but none had the dates or other subject info that would correspond with the memo referenced in the Manchester book. I called Regina Greenwell at the Library and she is going to do some research on this. Obviously if the document was open prior to the Act it wouldn't have a RIF so my initial search wouldn't have caught it anyway. Regina mentioned that the Library opened up a "Special File on the Assassination" in response to the Manchester book. so she thought that might be a good place to start looking. I will keep you informed.
