**Subject:** Bob Clark

Eileen has spoken to some of you about her call from Bob Clark regarding the Gore-Chernomyrdin talks. We need to be very careful about this because the State Department has gone out on a limb for us and they probably will not want to be undercut by us on this matter. We should not be disclosing publicly our confidential communications with the State Department. We are telling Clark that we have "no comment" on this and that this is an issue that should be addressed by the White House or by the Vice President. We still have no "official" communication from the State Department on this issue. Please call if you have any questions. And, as always, it helps a great deal if we can coordinate such issues in advance rather than undertake damage control after the cat is out of the bag.
