Subject: ARRB request for Posner tapes re: Aguilar letter

Dear Ms. Sullivan and ARRB,I am sending below a copy of a letter I sent to Gerald Posner, in support of Dr. Gary Aguilar's open letter to Gerald Posner, urging him to release the interview tapes he made with Drs. Humes and Boswell.I would also like to urge the ARRB to obtain these crucial documents and/or materials, because they relate to some of the most central questions arising in the JFK assassination case. If Mr. Posner is in possession of unique testimony from these doctors which contradicts other sources about them (including themselves), it would seem of the utmost importance to make the record in this matter complete. It is just on questions of this type -- the ambiguity of eyewitness and expert testimony -- upon which many of the most serious open questions about the Kennedy assassination ultimately rest. Thanks you for your consideration,Garby Leon
CC: Citizens for the Truth About the Kennedy Assassination (CTKA) and other concerned citizens---CC of Letter to Gerald Posner, below: Dear Gerald Posner --Having read Dr. Aguilar's letter to you, I wanted to join him in requesting the release of the interview tapes with Drs. Humes and Boswell, upon which you based your published account oftheir views, and which led to your conclusions in CASE CLOSED.Since there seems to be a fairly serious variance in your respective accounts of this matter, it would be difficult for me to understand why you would hesitate to make a full public disclosure of the interview tapes to substantiate your position.I think I speak for many people besides myself when I say that if such substantiation is not forthcoming, it would seem to question and severely undermine any public confidence in both the methods of research, and the conclusions asserted and published, in CASE CLOSED.In other words, until such time as your research is made public, I and many others will be forced to regard CASE CLOSED as unsubstantiated, and fictional.Sincerely,Garb Leon
