I am assuming that you are taking care of the first part of his request regarding the Boston transcript. With regard to the second part of his request, I suggest the following language: The Board staff has begun the process of reviewing records at the JFK Library. Many of these records relate to Cuban policy. In addition, the records of the Rockefeller Commission and the Church Committee which relate to the assassination of President Kennedy are defined by the JFK Act as "assassination records." They are to be included in the Collection at the Archives. The Board will also see other records of federal agencies which relate to Cuba. They could become part of the JFK Collection if defined as "assassination records" by the Board.
