Dear Eileen, Joe Backes kindly passed on to me your e.mail address. Like most people around the world I recall (as an 11 year old) that tragic Friday of 22nd November 1963. We had just heard on the radio that the 'President of America' had been shot (the whole family cried). A few days later, we all sat in silence listening to the 'live' broadcast of the funeral on radio. From then on I became intrigued by this "great" man who my parents admired and who I also came to admire. Last year, I visited Dallas, Texas. I was overcome with emotion strolling along Main, Houston and Elm Streets, the Dealey Plaza and the 'grassy knoll'. I visited the 6th Floor Museum up on the old TSBD building; whilst I expected to be "fed" the official WC findings, I was rather disappointed that a museum dedicated to the memory of a great American downplayed the "conspiracy" angle. If it is possible I would like to get on the AARB mailing list for declassified documents on JFK assassination and related documents on the Vietnam war (during his presidency).
