**Subject:** Records of Gerald Posner

To the members of the AARB:It is incumbent on you to open the resources used by Gerald Posner to reach the conclusions that were given so much media "big time" acclaim. If Mr. Posner has the kind of supportive evidence that the producers of Frontline and the editorial board of the New York Times believe is there, then public revelation is of prime importance. Urge, nay insist, that Mr. Posner come clean with his special access to JFK assassination data. The search must be done as proof of responsible reporting. No basement should be too deep, no file too fragile. The media light on Mr. Posner must be replaced by the light of day, and by the dawn of reckoning. Yours Truly, Mrs. Pearl Gladstone 4570 Wellington Drive Bensalem, Pa. 19020
