**Subject:** Jack White Response

1. Please give copies to David and Jeremy with a cover note (FTH) and include cover note in file. Please respond this way: The Review Board will eventually review all HSCA records. The status of HSCA records can be searched on the National Archives Internet database or by making a request with the National Archives JFK Access staff. Without any knowledge regarding these specific records, I can say that we have seen in many instances in the past that records were postponed due to an over abundance of caution when records were initially being reviewed for release under the JFK Act. The records may still be postponed because they simply have not come up in the review process yet; not because of any current desire to keep them closed. I have included the Record Information Forms on these records which indicate that the two specific records are open unclassified and open. See below. I will share your letter with the appropriate staff members for review of your request regarding FBI and CIA, as well as other agency, records on researchers. As I am sure you are aware, we have received thousands of requests and leads, all of which are extremely important to each individual researcher. We are attempting to process all of the requests and leads in an effective and efficient manner. v04-03-95ccrJFK RECORDS Referred to: Referred on: -----
